Item 1. Business

Unless the context requires otherwise, all references to "School Specialty," "we" or "our" refer to School Specialty, Inc. and its subsidiaries.

Our fiscal year ends on the last Saturday in April in each year. In this Annual Report on Form 10-K ("Annual Report"), we refer to fiscal years by reference to the calendar year in which they end (e.g. the fiscal year ended April 27, 2002 is referred to as "fiscal 2002"). Note that fiscal 2000 had 53 weeks, while all other fiscal years reported and referenced represent 52 weeks.

Company Overview

School Specialty is the largest direct marketing company for supplemental educational supplies to schools and teachers for pre-kindergarten through twelfth grade ("preK-12") in the United States. We operate the industry's only national distribution network and currently hold approximately a 14 percent market share of the \$6.2 billion supplemental educational supply market. We offer more than 80,000 items, mail over 38 million catalogs annually and have developed both an on-line education portal and e-commerce websites. Our broad product range enables us to provide customers with one source for virtually all of their supplemental educational supply needs. Our leading market position has been achieved by emphasizing high-quality products, superior order fulfillment and exceptional customer service. As a result, we have been able to establish relationships with virtually all of the country's preK-12 schools and reach nearly all of the country's teachers.

We recognize that educational supply procurement decisions are made at the district and school levels by administrators as well as at the classroom level by teachers and curriculum specialists. As a result, we have created an innovative multi-channel sales and marketing strategy enabling us to market our products to the various levels of buyers within the education market.

The "traditional" or "top down" approach targets school districts and school administrators through our traditional sales force of over 300 professionals, the School Specialty general supply catalog and the JuneBox.com portal, a B2B (business to business) education portal.

The "specialty" or "bottom up" approach targets the classroom level decision-makers through our specialty sales force of over 200 professionals and through our catalogs featuring seven of our specialty brands as well as the ClassroomDirect catalog and website, which is a B2T (business to teacher) website. Our other specialty catalogs include Childcraft, Sax Arts and Crafts, Sportime and Premier Agendas. The specialty businesses offer more specialized products for individual disciplines. Many of these products are proprietary to our specialty brands.

We believe most of our brands hold the leading market position in their respective categories. We have also solidified this leading market position by acquiring companies which have expanded our geographic presence and product offering. The critical mass we have achieved allows us to benefit from increased buying power while leveraging our national distribution network and sales force to operate more efficiently.

We have grown significantly in recent years through both acquisitions and internal growth. From fiscal 1997 through fiscal 2002, our revenues increased from \$191.7 million to \$767.4 million, a compound annual growth rate, or CAGR, of 32 percent. In fiscal 2002, revenues increased by 10.8 percent from the previous fiscal year. These results reflect only a partial year of the revenues from companies we acquired during fiscal 2002. We remain focused on growth opportunities, including

increasing our penetration rate and expanding in attractive regions, which would allow us to enhance our position as the number one marketer of supplemental educational supplies in the United States.

School Specialty, Inc., founded in October 1959, was acquired by U.S. Office Products in May 1996. In June 1998, School Specialty was spun-off from U.S. Office Products in a tax-free transaction. Our common stock is listed on the Nasdaq National Market under the symbol "SCHS." In August 2000, we reincorporated from Delaware to Wisconsin. Our principal offices are located at W6316 Design Drive, Greenville, Wisconsin 54942, and our telephone number is (920) 734-5712. Our general website address is www.schoolspecialty.com. Information contained in any of our websites is not deemed to be a part of this Annual Report.

Industry Overview

The school supply market consists of the sale of supplemental educational supplies, furniture and equipment to school districts, individual schools, teachers and curriculum specialists who purchase products for school and classroom use. The National School Supply Equipment Association, or NSSEA, estimates that annual sales in the United States of supplemental educational supplies and equipment to the school supply market are approximately \$6.2 billion. Of this amount, approximately \$3.7 billion is sold through institutional channels and the remaining \$2.5 billion is sold through retail channels, such as teacher stores.

According to the U.S. Department of Education, there are approximately 16,000 school districts, 118,500 elementary and secondary schools and 3.6 million teachers in the United States. Administrators for both school districts and individual schools usually make the decision to purchase the general school supplies needed to operate the school. Teachers and curriculum specialists generally decide on curriculum-specific products for use in their classrooms and individual disciplines. According to the NSSEA, teachers spent approximately \$1.3 billion of their own money in 2001 on supplies to supplement classroom materials.

The industry has highly predictable and generally favorable trends. Education expenditures have risen each year for the past 15 years and are expected to have exceeded \$390 billion in 2001, according to the U.S. Department of Education. The most common measure of education spending is current expenditures per student. According to the National Education Association, current expenditures per student in constant dollars have increased from \$6,620 in 1988 to an estimated \$7,400 in 2000 and are expected to increase further to \$9,760 in 2010, a 32 percent increase over 2000 expenditures. Incremental spending will thus exceed enrollment growth, which according to the U.S. Department of Education is projected to grow by 17 percent from 1988 to 2010 to a record level of 53.0 million students. As the market is affected by prevailing political and social trends, the attitude of the government towards education determines, to some extent, total expenditures on education. The prevailing political and social environments are generally favorable for incremental expenditures on education.

In January 2002 President Bush signed into law the No Child Left Behind Act of 2001 designed to improve student achievement in classrooms across the country. The fiscal 2002 federal budget provides for \$4.6 billion in federal education funding, an 11 percent increase from last year.

The industry is also highly fragmented with over 3,400 direct marketers of supplemental education supplies, many of which are family- or employee-owned businesses that operate in a single geographic region. We believe the increasing demand for single-source suppliers, prompt order fulfillment and competitive pricing, along with the related need for suppliers to invest in automated inventory and electronic ordering systems, is fostering consolidation within the industry. In addition, the industry is currently experiencing a shift in growth to the higher margin specialty business, which offers more focused products for different educational disciplines. Increased purchasing at the school and classroom levels, which

2

increases individual school's and teacher's roles in educational supply procurement decisions, is also driving this trend.

Recent Acquisitions

Premier Agendas. In December 2001 we acquired all of the stock of Premier Agendas, Inc. and Premier School Agendas, Ltd (together "Premier Agendas"). Headquartered in Bellingham, Washington, Premier Agendas is the largest provider of academic agendas in the United States and Canada. Premier Agendas has been included in our specialty segment since the date of acquisition. We paid approximately \$156 million in total purchase price for Premier Agendas, including cash of approximately \$152 million and a \$4 million six-month note payable to the former owners of Premier Agendas that bears interest at two percent over LIBOR. The note was paid in full on June 21, 2002.

Envision Product Line. In May 2001, we acquired the TimeTracker product line of student and teacher planners from Envision, Inc. We paid approximately \$4 million in cash and issued 120,106 shares of our common stock for a total purchase price of approximately \$6.7 million. TimeTracker is now a product line

of Premier Agendas and has been reported in our specialty segment since the date of acquisition.

Other Acquisitions. We acquired two other businesses in fiscal 2002 for a total purchase price of approximately \$3.3 million. The businesses are Premier Science, a start-up science curriculum company which will be operated as a product line within our Frey Scientific specialty brand and Bradburn School Supply which will become part of our traditional School Specialty brand.

Competitive Strengths

We attribute our strong competitive position to the following key factors:

Number One Market Share. We have the highest revenues of any direct marketing company for supplemental education supplies. We have developed this leading market position by emphasizing high-quality products, superior order fulfillment and exceptional customer service. We believe that our large size and brand recognition have resulted in significant buying power, economies of scale and customer loyalty.

Leading Established Brands. We have the most established and recognized brands in the industry. We believe that seven of our nine brands have a leading market position in their respective categories, based on revenues. With a historical track record of over 100 years for some brands, the Company's traditional and specialty brands represent a significant competitive advantage.

Broad Product Lines. Our strategy is to provide a full range of high-quality products to meet the complete supply needs of schools for preK-12. With over 80,000 items ranging from classroom supplies and furniture to playground equipment, we provide customers with one source for virtually all of their supplemental educational supplies and furniture needs. In addition to our traditional School Specialty brand, our specialty businesses enrich our general product offering and create opportunities to cross merchandise our specialty products to our traditional customers. Specialty businesses include the following brands:

3

Brand	Products
Childcraft	Early childhood
ClassroomDirect	General supplies
Sax Arts and Crafts	Art supplies
Frey Scientific	Science
Sportime	Physical education
Teacher's Video	Educational videos
Brodhead Garrett	Industrial arts
Premier Agendas	Student agendas

Innovative Full-Service Business Model. We believe that we are the only company in our industry that has developed a full-service business model with an integrated, multi-channel marketing approach. As a result, we reach district and school administrative decision makers as well as teachers and curriculum specialists through separate sales forces, catalog mailings and the Internet. We utilize our customer database across our family of catalogs to maximize their effectiveness and increase our marketing reach. Our primary e-commerce websites, JuneBox.com for administrative purchase decisions and ClassroomDirect.com for teacher-based purchase decisions, establish a comprehensive presence on the Internet which we believe is a significant competitive advantage for us.

Stable Industry with Favorable Trends and Dynamics. Because the market for educational supplies is driven primarily by demographics and government spending, we believe our industry is less exposed to economic cycles than many others. We have established working relationships with many large public education organizations and understand how to do business effectively with these institutions.

Established Infrastructure and Customer Relationships. We believe our seven leading brands, national sales force, the industry's largest product offering, established customer relationships and a national distribution network with multiple sales channels, including e-commerce, give us a significant advantage in this industry. The supplemental education supply market is highly

seasonal, with a January through July selling season and a June through October shipping season, and our infrastructure and logistical capacities and capabilities permit us to meet the requirements of these peak periods effectively.

Proven Acquisition and Integration Model. We have completed over 30 acquisitions since May 1996. We have established a 6 to 12 month target for our integration process in which a transition team is assigned to sell or discontinue incompatible business units, reduce the number of items in the product offering, eliminate redundant expenses, integrate the acquired entity's management information systems, and exploit buying power. To date, our integration efforts have focused on acquired traditional companies and certain administrative and warehousing functions at our specialty divisions. We believe that through these processes, we can rapidly improve the operating margins of the businesses we acquire.

Effective Use of Technology. We believe that our use of information technology systems allows us to turn over inventory more quickly than our competitors, offer customers more convenient and cost effective ways of ordering products, and more precisely focus our sales and marketing strategies.

Experienced and Incentivised Management. Our management team provides depth and continuity of experience. In addition, management's interests are aligned with those of our shareholders, as many members of management own shares of our common stock and/or have been granted options to purchase our common stock.

4

Growth Strategy

We use the following strategies to grow and enhance our position as the leading marketer of supplemental educational supplies:

Internal Growth. We plan to continue to increase our revenues by:

- . Taking advantage of market growth through rising expenditures per student, combined with increasing enrollment
- . Increasing penetration in geographic markets where we are currently underrepresented
- . Increasing penetration in large districts by offering our single-source product solution
- . Cross-merchandising specialty products to traditional customers
- . Encouraging brand loyalty to the total School Specialty brand offering
- . Adding new products to enhance the breadth of our product offering
- . Pursuing price increases to the extent supported by market conditions
- . Adding sales through Internet channels

Margin Improvement. As we continue to grow our revenues, we plan to increase margins by selling more specialty products, which typically generate higher gross margins due to the large number of proprietary and branded products in the product mix. In addition, we believe we can further improve operating margins by leveraging the benefits of recent acquisitions and:

- . Increasing buying power combined with price expansion
- . Continuing the elimination of redundant expenses of acquired businesses
- . Reducing our overhead costs
- . Improving the efficiency of our distribution network
- . Reviewing and adjusting the level of customer discounts

- . Taking advantage of the industry's shift toward site-based (versus centralized) purchasing

Acquisitions. Our selective acquisition strategy and proven integration model have allowed us to solidify our leading position within the industry and establish a strong national marketing and distribution platform. This platform allows us to integrate acquired brands more easily and strengthen our specialty brand portfolio and enter supplemental education categories in which we do not currently compete, such as music or math, in addition to enabling us to grow faster than the industry. We believe that our size and national presence give us an advantage as a potential acquirer in a consolidating industry.

Furthermore, our proven integration model allows us to realize significant synergies. We believe we have demonstrated our ability to reduce redundant costs, retain the customers of the acquired brands, and integrate distribution networks and information technology platforms. For each acquisition, we generally assume a reduction of approximately 10 percent of the acquired company's revenues. The reduction is expected as we discontinue any unprofitable business lines, divest any product lines outside

5

our core competencies and reduce overlapping sales forces. The integration model is designed to offset the sales reduction and efficiently combine the companies. The model allows us to smoothly consolidate distribution centers, improve geographic distribution, integrate the back-office functions, expand purchasing power and, when a specialty company is acquired, realize product and margin enhancement related to cross merchandising.

Product Lines

We market two broad categories of products: general school supplies and specialty products geared towards specific educational disciplines. Our specialty products enrich our general supply product offering and create opportunities to cross merchandise our specialty products to our traditional customers. With over 80,000 items ranging from classroom supplies and furniture to playground equipment, we provide customers with one source for virtually all of their supplemental educational supply needs. Our business is highly seasonal with peak sales levels occurring from June through October.

Our general school supply product lines can be described as follows:

School Specialty. Through the School Specialty catalog, which is targeted to administrative decision makers, we offer a comprehensive selection of classroom supplies, instructional materials, educational games, art supplies, school forms, educational software, physical education equipment, audio-visual equipment, school furniture and indoor and outdoor equipment. We believe we are the largest school furniture resale source in the United States. We have been granted exclusive franchises for certain furniture lines in specific territories and we enjoy significant purchasing power in open furniture lines. We enhance our furniture offering with a custom design and contract management service called Projects by Design, which assists in the building or renovation of schools.

Our specialty businesses offer product lines for specific educational disciplines, as follows:

Childcraft. Childcraft markets early childhood education products and materials. Childcraft also markets over 1,000 proprietary or exclusive products manufactured by its Bird-in-Hand Woodworks subsidiary, including wood classroom furniture and equipment such as library shelving, cubbies, easels, desks and play vehicles.

ClassroomDirect. ClassroomDirect offers general supplemental educational supplies to teachers and curriculum specialists directly through its mail-order catalogs and fully integrated B2T website.

Sax Arts and Crafts. Sax Arts and Crafts is a leading marketer of art supplies and art instruction materials, including paints, brushes, paper, ceramics, art metals and glass, leather and wood crafts. Sax Arts and Crafts offers customers a toll free "Art Savvy Hotline" staffed with professional artists to respond to customer questions.

Frey Scientific. Frey Scientific is a leading marketer of laboratory supplies, equipment and furniture for science classrooms. Frey Scientific offers value-added focus in the biology, chemistry, physics and earth science areas.

Sportime. Sportime is a leading marketer of physical education, athletic and recreational products. Sportime's catalog product offering includes products for early childhood through middle school as well as targeted products for physically challenged children.

Teacher's Video. Teacher's Video is a leading marketer and producer of educational videos for educators targeting teachers, curriculum coordinators and department heads through 16 different curriculum-oriented catalogs, with a total annual mailing volume in excess of 22 million catalogs.

6

Brodhead Garrett. Brodhead Garrett is the nation's oldest marketer of industrial arts products and technical materials to classrooms. Brodhead Garrett's product line includes various items such as drill presses, sand paper, lathes and robotic controlled arms.

Premier Agendas. Premier Agendas is the largest provider of academic agendas in the United States and Canada. The agendas include proprietary content to promote student success. Premier is also a leading publisher of school forms, including record books, grade books, teacher planners and other printed forms under the brand Hammond & Stephens.

Our merchandising managers, many of whom have prior experience in education, continually review and update the product lines for each business. The merchandising managers convene customer focus groups and advisory panels to determine whether current offerings are well-received and to anticipate future demand. The merchandising managers also travel to product fairs and conventions seeking out new product lines. This annual review process results in a constant reshaping and expansion of the educational materials we offer.

For further information regarding our traditional and specialty segments, see our "Segment Information" in notes to consolidated financial statements.

Sales and Marketing

We have implemented an innovative multi-channel sales and marketing strategy that employs a traditional sales force of over 300 professionals, a specialty sales force of over 200 professionals, over 38 million catalogs mailed annually, a B2T website and a B2B educational portal. We believe we have developed a substantially different sales and marketing model from that of other supplemental educational supply companies in the United States. Our strategy is to use two separate sales and marketing approaches ("top down" and "bottom up") to reach all the prospective purchasers in the education system.

Traditional Business. Our "top down" marketing approach targets administrative decision-makers through our traditional sales force, the School Specialty general supply catalog and the JuneBox.com education portal. This approach accounts for the majority of our traditional business.

Our primary compensation program for sales representatives is based on commissions as a percentage of gross profit on sales. For new and transitioning sales representatives, we offer salary and expense reimbursement until the representative is moved to a full commission compensation structure.

Schools typically purchase supplies based on established relationships with relatively few vendors. We seek to establish and maintain these critical relationships by assigning accounts within a specific geographic territory to a local area sales representative who is supported by a centrally located customer service team. The customer service representatives frequently call on existing customers to ascertain and fulfill their supplemental educational supply needs. The representatives maintain contact with these customers throughout the order cycle and assist in processing orders.

As part of the integration of Beckley-Cardy, which we acquired in 1998, we restructured our traditional sales and marketing operations from a decentralized regional system to a more centralized national structure. We

believe that the new structure significantly improves our effectiveness through better sales management, resulting in higher regional penetration, and significant cost savings through the reduction of distribution centers.

"Projects by Design" is a service we provide to help in the building or renovation of schools. Our professionals prepare a detailed room-by-room analysis to simplify supplemental educational supply

7

planning and fulfillment. Customers have the ability to view prospective classrooms through our innovative software in order to efficiently manage the project.

Specialty Business. We use the "bottom up" approach to target the classroom level decision-makers through our specialty sales force and catalogs featuring seven specialty brands along with our ClassroomDirect.com catalog and website. These catalogs allow teachers to procure supplies that are specific to their curriculum and classroom needs and may not have been purchased by school administration.

For each specialty brand, a major catalog containing its full product offering is distributed near the end of the calendar year for the beginning of the January through July selling season. During the course of the year we mail additional supplemental catalogs. Schools can also access the Childcraft, Teacher's Video and ClassroomDirect.com websites. Further, we believe that by cross marketing our specialty brands to traditional customers, we can achieve substantial incremental sales.

Internet Operations. Our Internet approach comprises both a B2T website and a B2B portal and creates a new sales channel for School Specialty. We have invested approximately \$11 million within the last three years to develop what we believe to be the number one education portal and e-commerce website in the industry. In January 1999, we launched our fully-integrated, e-commerce website ClassroomDirect.com. The site offers access to approximately 18,000 items with digital pictures of most items. The site is currently teacher-focused, but we have the option to broaden the format to target the large parent/student market.

In August 1999, we launched JuneBox.com, a portal structured as an education mall offering our products. We believe that this site will play an important role within the education industry by providing education-related content and information, thereby strengthening our brand name recognition.

JuneBox.com is a one-stop shop for all supplemental educational supplies offering School Specialty's full product portfolio or custom electronic catalogs as well as teaching tips, lesson plan help, product reviews and updates on current events affecting the education community.

We also benefit from the Internet with increased quality of customer service and lower operating costs. By shifting the majority of customer service for e-commerce customers to the Internet and having orders reviewed and verified on-line, we have been able to reduce the associated costs while providing a 24-hour service. Substantially all of our investments in our Internet operations have been dedicated towards building an efficient, advanced and flexible Internet platform.

Pricing. Pricing for our general and specialty product offerings varies by product and market channel. We generally offer a negotiated discount from catalog prices for supplies from our School Specialty catalog and respond to quote and bid requests. The pricing structure of specialty products offered through direct marketing is generally not subject to negotiation.

School Specialty has built a broad customer base where no single customer accounted for more than 2% of sales during fiscal 2000, 2001 or 2002. We believe we sell into every school district in the United States and reach nearly all of the country's teachers.

Procurement

Traditional Business. We purchase our general school supplies and furniture and equipment from over 2,000 vendors. Product selection is evaluated on an annual basis and we typically negotiate an annual supply contract with each vendor. Our supply contracts with our larger vendors usually provide for

special pricing and/or extended terms and often include volume based incentive and rebate programs. In

8

fiscal 2000, we introduced a private label, ClassroomSelect, and subsequently expanded product selection which has allowed for margin expansion. We have exclusive distribution rights on several furniture and equipment lines.

Specialty Business. Many of our products in the specialty business are proprietary. We either develop the product or it is an exclusive product developed on our behalf. Typically, we outsource the manufacturing of proprietary products, except for our Childcraft division, which manufactures wood furniture for sale by Childcraft and our other businesses. We produce our Teacher's Video proprietary videos at our Global Video facility in Tempe, Arizona. Our Premier agendas and forms are designed and produced at our facilities in Bellingham, Washington and Fremont, Nebraska, as well as through third party printers. We purchase non-proprietary products in the specialty business in a similar manner as our traditional business procurement process.

To the extent the traditional and specialty businesses are sourcing product from common vendors, we typically negotiate one contract to take full advantage of our combined buying power. We maintain close and stable relationships with our vendors to facilitate a streamlined procurement process. At the same time, we continually review alternative supply sources in an effort to improve quality, improve customer satisfaction, and reduce product cost.

Logistics

We have built what we believe is the largest and most sophisticated distribution network among our direct marketing competitors, with nine fully-automated and seamlessly-integrated distribution centers that ship directly to the customer. The distribution centers average approximately 190,000 square feet. We also maintain call centers to support customer service and sales. We believe this network represents a significant competitive advantage for us, allowing us to reach any school in a fast and efficient manner. We shipped approximately 70 percent of stocked inventory via UPS in fiscal 2002 and had a 97 percent on-time delivery rate. The fill-rate of our facilities has generally exceeded 95 percent at the peak of our shipping season. We have the ability to expand the network through necessary additions needed to support sales growth. New warehouse capacity can be leased and no large capital investments are typically required.

In order to maintain the proprietary nature of some of our specialty products, we operate three small manufacturing facilities. The Lancaster, Pennsylvania facility manufactures products for the Childcraft brand, while the Bellingham, Washington and Fremont, Nebraska facilities are used for the production of student agendas and school forms. Our manufactured products account for approximately 5 percent of our sales.

Information Systems

We believe that through the utilization of technology in areas such as purchasing and inventory management, customer order fulfillment and database management, we are able to turn over inventory more quickly than our competitors, offer customers more convenient and cost effective ways of ordering products and more precisely focus our sales and marketing strategies.

We use two principal information systems. In the traditional and certain specialty businesses, we use a specialized distribution software package used primarily by office products and paper marketers. This software package, System for Distributors, offers a fully-integrated process from sales order entry through customer invoicing, and inventory requirements planning through accounts payable. Our system provides information through daily automatic posting to the general ledger and integrated inventory

9

control. We have made numerous enhancements to this process that allow greater flexibility in addressing the seasonal requirements of the industry and meeting specific customer needs.

The remaining specialty divisions use a mail-order and catalog system provided by Ecometry Corporation. This mail-order and catalog system meets the needs of the direct marketing approach with extensive list management and tracking of multiple marketing efforts. The system provides complete and integrated order processing, inventory control, warehouse management and financial applications.

In April 2002 we installed a new order management and warehouse management system in our Fresno, California distribution center. With this system, designed by Yantra, we expect to achieve a more simplified order process cycle, improved access to data and enhancement of our inventory control procedures. Following evaluation of the pilot Fresno installation, we plan to install the Yantra system in our other distribution centers beginning in October 2002.

Our software and hardware allow for continued incremental growth as well as the opportunity to integrate new client-server and other technologies into the information systems.

Competition

We believe competition in the market we operate in is fragmented with approximately 3,400 regional suppliers to preK-12 schools. These companies are generally smaller than us in terms of revenues and serve customers in a limited geographic region. We also compete with alternate channel competitors such as office product contract stationers and office supply superstores. Their primary advantages over us are size, location, greater financial resources and buying power. Their primary disadvantage is that their product mix typically covers less than 20 percent of the school's needs (measured by volume).

For the most part, our competitors do not offer special order fulfillment software, which we believe is increasingly important to adequately service school needs. We believe we compete favorably with these companies on the basis of service and product offering.

Employees

As of June 1, 2002, we had approximately 2,400 full-time employees. To meet the seasonal demands of our customers, we employ many seasonal employees during the late spring and summer months. Historically, we have been able to meet our requirements for seasonal employment. None of our employees is represented by a labor union. We consider our relations with our employees to be very good.

Forward-Looking Statements

Statements in this Annual Report which are not historical are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include: (1) statements made under Item 1, Business and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, including, without limitation, statements with respect to internal growth plans, projected revenues, margin improvement, future acquisitions, capital expenditures and adequacy of capital resources; (2) statements included or incorporated by reference in our future filings with the Securities and Exchange Commission; and (3) information contained in written material, releases and oral statements issued by, or on behalf of, School Specialty including, without limitation, statements with respect to projected revenues, costs, earnings and earnings per share. Forward-looking statements also include statements regarding the intent, belief or current expectation of School Specialty or its officers. Forward-looking statements include statements preceded

10

by, followed by or that include forward-looking terminology such as "may," "will," "should," "believes," "expects," "anticipates," "estimates," "continues" or similar expressions.

All forward-looking statements included in this Annual Report are based on information available to us as of the date hereof. We do not undertake to update any forward-looking statements that may be made by or on behalf of us, in this Annual Report or otherwise. Our actual results may differ materially from

those contained in the forward-looking statements identified above. Factors which may cause such a difference to occur include, but are not limited to the factors listed in Exhibit 99.2 to our Form 10-K for fiscal 2002.

Item 2. Properties

Our corporate headquarters is located in a leased facility at W6316 Design Drive, Greenville, Wisconsin, a combined office and warehouse facility of approximately 332,000 square feet, which also services both our traditional and specialty segments. In addition, we lease or own the following principal facilities:

 - (3) Location primarily services both business segments.

The 73,000 square foot Lancaster, Pennsylvania facility is used for manufacturing and the Fremont, Nebraska and Bellingham, Washington facilities are used for production of agendas and school forms. The other facilities are distribution centers and/or office space. We believe that our properties, as enhanced for our ongoing expansion, are adequate to support our operations for the foreseeable future. We regularly review the utilization and consolidation of our facilities.

Item 3. Legal Proceedings

We are, from time to time, a party to legal proceedings arising in the normal course of business. We believe that none of these legal proceedings will materially or adversely affect our financial position, results of operations or cash flows.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted during the quarter ended April 27, 2002 to a vote of our security holders.

EXECUTIVE OFFICERS OF THE REGISTRANT

As of June 1, 2002, the following persons served as executive officers of School Specialty:

Name and Age ----- of Officer -----	
David J. Vander Zanden Age 47	Mr. Vander Zanden became the President and Chief Operating Officer of School Specialty in March 1998 and was appointed the Interim Chief Executive Officer in March 2002, following the unexpected death of Daniel P. Spalding, former Chairman and Chief Executive Officer. From 1992 to March 1998, he served as President of Ariens Company, a manufacturer of outdoor lawn and garden equipment. Mr. Vander Zanden has served as a director of School Specialty since June 1998.
Mary M. Kabacinski Age 53	Ms. Kabacinski, a Certified Public Accountant, has served as Executive Vice President and Chief Financial Officer of School Specialty since August 1999. From 1989 to 1999, she served as Senior Vice President and Chief Financial Officer for Marquette Medical Systems, a manufacturer of medical devices.
A. Brent Pulsipher Age 60	Mr. Pulsipher became Executive Vice President of Corporate Logistics and Technology of School Specialty in March 2001. From 1998 to 2001, Mr. Pulsipher was Chief Information Officer for Tropical Sportswear International, an apparel producer and brand manager. Mr. Pulsipher held the position of Manager of Consulting Services for Distribution Resources Company from 1988 to 1998.
Donald J. Noskowiak Age 44	Mr. Noskowiak has served as Vice President of Finance and Business Development of School Specialty since August 1999. Mr. Noskowiak has been with School Specialty since 1992, and served as Chief Financial Officer from 1997 to August 1999.

The term of office of each executive officer is from one annual meeting of the Board of Directors until the next annual meeting of the Board of Directors or until a successor for each is selected. There are no arrangements or understandings between any of our executive officers and any other person (not an officer or director of School Specialty acting as such) pursuant to which any of our executive officers were selected as an officer of School Specialty.

(1) Our business has grown significantly since 1998 through acquisitions and internal growth. For detailed information on acquisitions during fiscal years 2002, 2001 and 2000, see the "Business Combinations" note in our notes to consolidated financial statements. During fiscal 1999, we made five acquisitions under the purchase method for an aggregate purchase price of approximately \$127.8 million and during fiscal 1998 we made eight acquisitions under the purchase method for an aggregate purchase price of approximately \$99.2 million.

(2) At the beginning of fiscal 2002, we adopted SFAS No. 142, which resulted in goodwill no longer being subject to amortization. Goodwill amortization, net of tax, included in net income during

fiscal years 2001, 2000, 1999 and 1998 was \$5.0 million, \$4.5 million, \$3.9 million and \$1.7 million, respectively.

- (3) Fiscal 2001 financial data has been restated. See "Restatement of Financial Statements" note in our notes to consolidated financial statements.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A")

You should read the following discussion and analysis in conjunction with our consolidated financial statements and related notes, included elsewhere in this Annual Report.

Overview

We are the largest direct marketing company for supplemental educational supplies to schools and teachers for preK-12 in the United States. We offer more than 80,000 items through an innovative two-pronged marketing approach that targets both school administrators and individual teachers. Our broad product range enables us to provide our customers with one source for virtually all of their non-textbook school supplies and furniture needs.

We have grown significantly in recent years primarily through acquisitions but also through internal growth. For information on our recent acquisitions see the "Business Combinations" note in our notes to consolidated financial statements. Our revenues for fiscal 2002 were \$767.4 million and our operating income was \$57.5 million, which represented compound annual revenue growth of 25.4% and compounded annual operating income growth, prior to restructuring charges of 30.7%, compared to our fiscal 1998 results.

Our gross margin has improved in recent years primarily due to acquisitions and increased buying power. We have acquired many specialty businesses, which tend to have higher gross margins than our traditional business. In addition, our acquisitions of both specialty and traditional businesses have increased our buying power, resulting in reduced costs of the products we purchase.

Our operating profit and margins also improved significantly over the last several years. This improvement reflects our acquisitions of specialty companies, which typically have higher operating margins than our traditional business. In addition, through the integration of acquired businesses, we have been able to further improve our operating profit and margins by eliminating redundant expenses, leveraging overhead costs and improving purchasing power.

In recent years, we have grown through acquisitions. As a result of integrating the acquired operations, we have recorded restructuring charges over the last several years. These charges have primarily been to close existing facilities and to consolidate operations that, when combined with acquired operations, became redundant. To the extent our integrations have resulted in certain exit costs such as the closure of acquired facilities, the costs were accrued in purchase accounting.

Our business and working capital needs are highly seasonal with peak sales levels occurring from June through October. During this period, we receive, ship and bill the majority of our orders so that schools and teachers receive their merchandise by the start of each school year. Our inventory levels increase in April through June in anticipation of the peak shipping season. The majority of shipments are made between May and October and the majority of cash receipts are collected from September through December. As a result, we usually earn more than 100% of our annual net income in the first two quarters of our fiscal year and operate at a net loss in our third and fourth fiscal quarters.

Our fiscal 2001 financial statements have been restated. See "Restatement of Financial Statements" note in our notes to consolidated financial statements. The following MD&A gives affect to the restatement.

Results of Operations

The following table sets forth certain information as a percentage of revenues on a historical basis concerning our results of operations for the fiscal years 2002, 2001, and 2000.

Consolidated Historical Results of Operations

Fiscal 2002 Compared to Fiscal 2001

Revenues

Revenues increased 10.8% from \$692.7 million for fiscal 2001 to \$767.4 million for fiscal 2002. Traditional segment revenues increased 15.9% from \$415.0 million in fiscal 2001 to \$480.9 million in fiscal 2002. The increase in traditional segment revenues was primarily due to acquisitions. Specialty segment revenues increased 3.2% from \$277.7 million in fiscal 2001 to \$286.5 million in fiscal 2002. The increase in specialty segment revenues was due to internal growth and acquisitions, partially offset by the exclusion of revenues from the three businesses disposed of since January 2001.

Gross Profit

Gross profit increased 16.8% from \$251.7 million, or 36.3% of revenues in fiscal 2001 to \$294.0 million, or 38.3% of revenues in fiscal 2002. The increase in gross profit was due to an increase in revenues and gross margin. The increase in gross margin was primarily due to strong improvement in the traditional segment from 30.8% of revenues in fiscal 2001 to 33.9% of revenues in fiscal 2002. This increase in gross margin in the traditional segment was primarily due to strong improvement in the consumable business, driven by improved purchasing power and modest selling price increases. Specialty segment gross margin improved to 45.6% of revenues in fiscal 2002 from 44.6% of revenues in fiscal 2001. This improvement was primarily driven by the ClassroomDirect business, which improved gross margin primarily through an increase in selling price and the Childcraft business, which improved gross margin primarily through improved operating efficiencies and purchasing power. On a consolidated basis, gross margin was impacted by an increase in traditional segment revenue mix (driven by the November 2000 acquisition of J.L. Hammett's K-12 wholesale business) from 59.9% of revenues in fiscal 2001 to 62.7% of revenues in fiscal 2002. The traditional segment historically has lower gross margins than the specialty segment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses ("SG&A") include selling

expenses (the most significant component of which is sales wages and commissions), operations expenses (which includes customer service, warehouse and warehouse shipments transportation costs), catalog costs, general administrative overhead (which includes information systems, accounting, legal, and human resources) and depreciation and amortization expense.

SG&A increased 13.6% from \$208.2 million or 30.1% of revenues in fiscal 2001 to \$236.4 million or 30.8% of revenues in fiscal 2002. Traditional segment SG&A increased \$10.6 million from \$98.6 million or 23.8% of revenues in fiscal 2001 to \$109.1 million or 22.7% of revenues in fiscal 2002. Increase in SG&A was primarily due to an increase in variable costs related to increased revenues and an increase in fixed operating costs, primarily due to redundancies created with the Hammett acquisition. Specialty segment SG&A increased \$13.0 million from \$95.2 million or 34.3% of revenues in fiscal 2001 to \$108.2 million or 37.8% of revenues in fiscal 2002. Increase in specialty segment SG&A was primarily due to the acquisition of Premier Agendas, and costs to consolidate existing operations into acquired businesses. These traditional and specialty segment increases were partially offset by our early adoption at the beginning of fiscal 2002 of Statement of Financial Accounting Standards ("SFAS") No. 142 "Goodwill and Intangible Assets," which resulted in the discontinuance of amortization of goodwill. Corporate expenses increased \$4.7 million from \$14.4 million in fiscal 2001 to \$19.1 million in fiscal 2002. This increase was primarily due to an increase in salaries and wages, salary continuation obligations related to the death of our chief executive officer and depreciation.

The decrease in traditional segment SG&A as a percentage of revenues was primarily due to the adoption of SFAS No. 142 at the beginning of fiscal 2002. The increase in specialty segment SG&A as a percentage of revenues was primarily due to 1) operating costs of Premier Agendas, a highly seasonal business acquired during a seasonally low period, 2) costs associated with closing our distribution center in Birmingham, Alabama, 3) costs associated with integrating our Hammond & Stephens sales force with the Premier Agendas sales force and 4) increased catalog costs primarily due to the inclusion of a full fiscal year of catalog expense for Teacher's Video, which has higher catalog costs as a percentage of revenues than our other specialty businesses. These increases were partially offset by a reduction in amortization expense, due to our adoption of SFAS No. 142 at the beginning of fiscal 2002.

Interest Expense

Net interest expense increased 2.5% from \$16.9 million in fiscal 2001 to \$17.3 million in fiscal 2002. The increase in interest expense is primarily due to an increase in debt outstanding partially offset by a reduction in our effective borrowing rate on our credit facility.

Other Expenses

Other expense increased \$2.8 million from \$1.2 million in fiscal 2001 to \$4.0 million in fiscal 2002. Other expenses in fiscal 2002 primarily consisted of the discount and loss on the accounts receivable securitization of \$2.0 million, \$1.7 million to write-off a long-term investment and a \$0.3 million realized loss on the sale of available-for-sale securities. Other expense in fiscal 2001 primarily consisted of the discount and loss on an accounts receivable securitization (the "receivable securitization") of \$1.4 million.

18

Provision for Income Taxes

The provision for income taxes for fiscal 2002 increased 60.0% or \$5.4 million over fiscal 2001, reflecting effective tax rates of 40.0% and 43.2% for fiscal years 2002 and 2001, respectively. The change in the effective tax rate of 40.0% in fiscal 2002 as compared to 43.2% in fiscal 2001 was due primarily to the impact of our adoption of SFAS No. 142, and its impact on non-deductible goodwill amortization. The higher effective tax rate, compared to the federal statutory rate of 35%, was primarily due to state and local income taxes.

Fiscal 2001 (52 weeks) Compared to Fiscal 2000 (53 weeks)

Revenues

Revenues increased 8.4% from \$639.3 million for fiscal 2000 to \$692.7

million for fiscal 2001. Traditional segment revenues increased 7.3% from \$386.7 million in fiscal 2000 to \$415.0 million in fiscal 2001. Specialty segment revenues increased 9.9% from \$252.6 million in fiscal 2000 to \$277.7 million in fiscal 2001. Increase in revenues was primarily due to the inclusion of revenues from the eight businesses acquired since the beginning of fiscal 2000 and internal growth on existing business. These increases were partially offset by an extra week of shipments in fiscal 2000, as fiscal 2000 was a 53 week fiscal year and fiscal 2001 had 52 weeks. On a comparable 52 week basis, revenues increased 10.4% from fiscal 2000 to fiscal 2001.

Gross Profit

Gross profit increased 7.9% from \$233.2 million, or 36.5% of revenues, in fiscal 2000 to \$251.7 million, or 36.3% of revenues, in fiscal 2001. Traditional segment gross profit increased \$7.3 million from \$120.7 million or 31.2% of revenues in fiscal 2000 to \$128.0 million or 30.8% of revenues in fiscal 2001. The increase in traditional segment gross profit was primarily due to an increase in revenues. The change in traditional segment gross margin was primarily due to slightly lower gross margin on the furniture lines, partially offset by enhanced consumable business gross margins and an increase in consumable business product mix, which has higher gross margins than the furniture lines. Specialty segment gross profit increased \$11.2 million from \$112.6 million or 44.6% of revenues in fiscal 2000 to \$123.8 million or 44.6% of revenues in fiscal 2001. Increase in specialty segment gross profit was primarily due to an increase in revenues and an increase in gross margin in the Childcraft division (driven by improved operating efficiencies and purchasing power) and the acquisition of Global Video in June 2000, which has higher gross margins than most of our other specialty businesses. These increases were offset by lower gross margins in the ClassroomDirect division, driven by Internet pricing strategies.

Selling, General and Administrative Expenses

SG&A increased 12.8% from \$184.6 million, or 28.9% of revenues, in fiscal 2000 to \$208.2 million, or 30.1% of revenues, in fiscal 2001. Traditional segment SG&A increased \$11.6 million, or 13.3%, from \$87.0 million, or 22.5% of revenues, in fiscal 2000 to \$98.6 million, or 23.8% of revenues in fiscal 2001. The increase in traditional segment SG&A was primarily due to an increase in variable costs related to increased revenues and the acquisition of certain assets of Hammett. The change in traditional segment SG&A as a percentage of revenues was primarily due to the acquisition of Hammett during our seasonally low period, which created redundancies in the traditional segment. We began to integrate Hammett during the third quarter of fiscal 2001, and further consolidated operations as a result of the acquisition in the third quarter of fiscal 2002, following our heavy shipping season. Specialty segment SG&A increased \$10.0 million or 11.7% from \$85.2 million, or 33.8% of revenues in fiscal 2000 to \$95.2

19

million or 34.3% of revenues in fiscal 2001. The increase in specialty segment SG&A and SG&A as a percent of revenues was primarily due to an increase in revenues and expenses incurred to develop our Internet operations and the acquisition of Global Video in June 2000, a business which generally has higher SG&A expense (due to catalog costs) than our other specialty businesses.

Restructuring Costs

During the fourth quarter of fiscal 2001, we recorded a restructuring charge of \$4.5 million, which includes \$2.4 million to close redundant facilities, \$1.5 million for severance and termination benefits for approximately 80 individuals and \$0.6 million for other costs. Further details of the restructuring charge are discussed in the notes to our consolidated financial statements.

Interest Expense

Net interest expense increased \$3.7 million from \$13.2 million, or 2.1% of revenues, in fiscal 2000, to \$16.9 million, or 2.4% of revenues in fiscal 2001. Increase in net interest expense was primarily attributable to the debt assumed and cash paid for the acquisitions of Global Video and Hammett, which occurred in June 2000 and November 2000, respectively, and a slight increase in the effective interest rate. These increases were partially offset by reduced

interest expense attributable to debt repaid from the net proceeds from the sale of property of \$6.6 million, the sale of Gresswell of \$3.5 million and proceeds from the receivable securitization of \$50.0 million, which we entered into in November 2000.

Other Expenses

Other expenses decreased \$0.7 million from \$1.9 million in fiscal 2000 to \$1.2 million in fiscal 2001. Other expenses in fiscal 2001 primarily consisted of the discount and loss on the receivable securitization of \$1.4 million. Other expenses in fiscal 2000 primarily consisted of a \$1.5 million non-cash impairment charge on a minority equity investment.

Provision for Income Taxes

Provision for income taxes for fiscal 2001 decreased 40.0% or \$6.0 million over fiscal 2000, reflecting income tax rates of 43.2% and 45.0% in fiscal 2001 and fiscal 2000, respectively. The decrease in the effective tax rate was primarily due to the impact of the difference in book and tax basis related to the divestitures of SmartStuff and Gresswell. The higher effective tax rate, as compared to the federal statutory rate of 35.0%, was primarily due to state and local income taxes and non-deductible goodwill amortization.

Liquidity and Capital Resources

At April 27, 2002, we had working capital of \$78.6 million. Our capitalization at April 27, 2002 was \$561.2 million and consisted of total debt of \$290.1 million and shareholders' equity of \$271.2 million.

We currently have a five year secured \$350 million credit facility with Bank of America, N.A. The credit facility had an initial \$100 million term loan maturing quarterly and \$250 million of availability under revolving loans. The credit facility matures on September 30, 2003. The amount outstanding as of April 27, 2002 under the revolving portion of the credit facility was \$118.0 million.

During fiscal 2002, the term loan portion of the credit facility was repaid in full. The credit facility is secured by substantially all of our assets and contains certain financial and other covenants. Borrowings under the credit facility are usually significantly higher during the first two quarters of our fiscal year to meet the working capital needs of our peak selling season.

On July 30, 2001, we sold an aggregate principal amount of \$130 million of six percent convertible subordinated notes due August 1, 2008. The notes are convertible at any time prior to maturity into shares of our common stock at a conversion price of \$32.29 per share and accrue interest payable semi-annually. Net proceeds from the sale of these notes was approximately \$125.7 million. On August 2, 2001, the purchasers of the notes exercised their over-allotment option in full and purchased an additional \$19.5 million. We used the total net proceeds from the offering of \$144.6 million to repay a portion of the debt outstanding under the credit facility.

Effective January 2, 2001, we entered into an interest rate swap agreement with The Bank of New York covering \$50 million of the outstanding amount under the revolving portion of our credit facility. The one-year non-cancelable swap agreement fixed the 30-day LIBOR interest rate at 6.07% per annum on a \$50 million notional amount. The swap expired January 2, 2002.

As of April 27, 2002, our effective interest rate on borrowings under our credit facility was 5.26%, which includes amortization of the loan origination fee and costs and the commitment fee on unborrowed funds. During fiscal 2002, we borrowed under our credit facility primarily for seasonal working capital, acquisitions, and capital expenditures. During the same period, we made certain changes to certain financial and other covenants under our credit facility.

In November 2000, we entered into a receivable securitization with a financial institution whereby we sell on a continuous basis an undivided interest in all of our eligible trade accounts receivable. Under the receivable securitization, we transfer without recourse all of our accounts receivable to a wholly-owned subsidiary. This subsidiary, in turn, has sold and, subject to

certain conditions, may from time to time sell an undivided interest in these receivables and is permitted to receive advances of up to \$50 million for the sale of such undivided interest. The facility expired in November 2001 and was renewed to extend to November 2002 and may be extended further with the financial institution's consent. At April 27, 2002, \$50 million was advanced under the receivable securitization and accordingly, that amount of accounts receivable has been removed from our consolidated balance sheet. The proceeds from the sale were used to reduce borrowings on our credit facility. Costs associated with the sale of receivables, primarily related to the discount and loss on sale, were \$2.0 million during fiscal 2002 and are included in other expenses in our consolidated statement of operations. In May 2002, the receivable securitization was amended to allow advances up to \$100 million.

In November 2000, we entered into two sale-leaseback transactions which are accounted for as financings. Under the agreements, we recorded \$18.5 million of debt, which has an effective interest rate of 8.97%, excluding amortization of related fees. The leases expire in November 2020.

During fiscal 2002, net cash provided by operating activities was \$75.6 million, a 109.9% increase over fiscal 2001. The increase in cash from operating activities was primarily due to an improvement in working capital management and an increase in net income. Net cash used in investing activities was \$160.8 million, including \$162.2 million for acquisitions and \$12.1 million for additions to property, plant and equipment. We realized \$9.6 million in net proceeds from the sale of available-for-sale securities. Cash from financing activities was \$85.7 million. Net proceeds from our convertible debt offering of \$144.6 million were used to reduce borrowing under our credit facility. Borrowing under our credit facility and cash from operations were used to fund the above investing activities. During fiscal 2002, debt outstanding under our credit facility was reduced by \$61.0 million.

21

During fiscal 2001, net cash provided by operating activities was \$36.0 million, a 16.3% increase over fiscal 2000. Net cash used in investing activities was \$118.9 million, including \$113.1 million for acquisitions and \$15.2 million for additions to property and equipment. This use of cash was partially offset by net proceeds provided by the sale of property of \$6.6 million and the sale of Gresswell of \$3.5 million. Net borrowings combined with cash from operations, cash on hand and proceeds from the receivables securitization of \$50.0 million were used to finance the above investing activities.

Our capital expenditures in fiscal 2003 are expected to be approximately \$12 million. The largest items include computer hardware and software.

We anticipate that our cash flow from operations, borrowings available from our existing credit facility and other sources of capital will be sufficient to meet our liquidity requirements for operations, including capital expenditures, and our contractual obligations.

Summary of Contractual Obligations

Fluctuations in Quarterly Results of Operations

Our business is subject to seasonal influences. Our historical revenues

and profitability have been dramatically higher in the first two quarters of our fiscal year, primarily due to increased shipments to customers coinciding with the start of each school year. Quarterly results also may be materially affected by the timing of acquisitions, the timing and magnitude of costs related to such acquisitions, variations in our costs for the products sold, the mix of products sold and general economic conditions. Moreover, the operating margins of companies we acquire may differ substantially from our own, which could contribute to further fluctuation in quarterly operating results. Therefore, results for any quarter are not indicative of the results that we may achieve for any subsequent fiscal quarter or for a full fiscal year.

The following table sets forth certain unaudited consolidated quarterly financial data for fiscal years 2002 and 2001. We derived this quarterly data from unaudited consolidated financial statements. Certain fiscal 2002 and fiscal 2001 financial data has been restated. See "Restatement of Financial Statements" note in our notes to consolidated financial statements.

Inflation

Inflation has and is expected to have only a minor effect on our results of operations and our internal and external sources of liquidity.

Critical Accounting Policies

We believe the policies identified below are critical to our business and the understanding of its results of operations. The impact and any associated risks related to these policies on our business are discussed throughout MD&A where applicable. Refer to our notes to consolidated financial statements in Item 8 for detailed discussion on the application of these and other accounting policies. The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect: a) the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements; and b) the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates on an ongoing basis and base them on a combination of historical experience and various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates. Our critical accounting policies that require significant judgments and estimates used in the preparation of our consolidated financial statements are as follows:

Catalog Costs and Related Amortization

We accumulate all direct costs incurred in the development, production and circulation of our catalogs on our balance sheet until such time as the

related catalog is mailed, at which time, they are subsequently amortized into SG&A over the expected sales realization cycle, typically one year or less. Our initial estimation of the expected sales realization cycle for a particular catalog is based on, among

23

other possible considerations, our historical sales experience with identical or similar catalogs and our assessment of prevailing economic conditions, and various competitive factors. We track our subsequent sales realization, reassess the marketplace, and compare our findings to our previous estimate and adjust our amortization going forward, if necessary.

Goodwill and Intangible Assets

At April 27, 2002, goodwill and intangible assets represented approximately 63% of our total assets. The recoverability of these assets requires considerable judgment and is evaluated on an annual basis or more frequently if events or circumstances indicate that the assets may be impaired. As it relates to goodwill and indefinite life intangible assets, we apply the impairment rules in accordance with SFAS No. 142. As required by SFAS No. 142, the recoverability of these assets is subject to a fair value assessment which includes several significant judgments regarding financial projections and comparable market values. As it relates to definite life intangible assets, we apply the impairment rules as required by SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and Assets to Be Disposed Of" which also requires significant judgment and assumptions related to the expected future cash flows attributable to the intangible asset. The impact of modifying any of these assumptions can have a significant impact on the estimate of fair value and, thus, the recoverability of the asset.

Recent Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of. SFAS No. 144 is effective for fiscal years beginning after December 31, 2001, with early adoption permitted. The adoption of SFAS No. 144 is not expected to have a material effect on our financial statements or financial position.

24

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

Our financial instruments include cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and debt. Market risks relating to our operations result primarily from changes in interest rates. Our borrowings under our credit facility and our discount expense related to our receivable securitization are primarily dependent upon LIBOR rates. Assuming no change in our financial structure, if variable interest rates were to average 100 basis points higher during fiscal 2003, pre-tax earnings would decrease by approximately \$2.8 million. This amount was determined by considering a hypothetical 100 basis point increase in interest rates on average variable-rate debt outstanding and the average advanced under the receivable securitization during fiscal 2002, excluding any impact of the swap agreement. The estimated fair value of long-term debt approximates its carrying value at April 27, 2002, with the exception of our convertible debt which at April 27, 2002 had a carrying value of \$149.5 million and a fair market value of \$168.6 million.

To manage interest rate risk on the variable rate borrowings under the revolving portion of our credit facility, we have historically entered into interest rate swap agreements. See "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources." These interest rate swap agreements had the effect of locking in, for a specified period, the base interest rate we paid on a notional principal amount established in the swaps. As a result, while these hedging arrangements were structured to reduce our exposure to interest rate increases, it also limits the benefit we might otherwise have received from any interest rate decreases. The swaps were typically cash settled monthly, with interest expense adjusted for amounts paid or received. The swap agreements had the effect of

increasing interest expense by approximately \$0.9 million in fiscal 2002 and decreasing fiscal 2001 interest expense by approximately \$0.5 million. We do not hold or issue derivative financial instruments for trading purposes.

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors and Shareholders of
School Specialty, Inc.:

We have audited the accompanying consolidated balance sheets of School Specialty, Inc., and subsidiaries as of April 27, 2002 and April 28, 2001 and the related consolidated statements of operations, shareholders' equity, and cash flows for the years then ended. Our audits also included the financial statement schedule for the years ended April 27, 2002 and April 28, 2001 listed in the Index at Item 14(a)(2). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such 2002 and 2001 consolidated financial statements present fairly, in all material respects, the financial position of School Specialty, Inc. and subsidiaries at April 27, 2002 and April 28, 2001, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule for the years ended April 27, 2002 and April 28, 2001, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly in all material respects the information set forth therein.

As described in Note 3 to the consolidated financial statements, on April 29, 2001, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets". Also, as described in Note 15 to the consolidated financial statements, the accompanying 2001 financial statements have been restated.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Shareholders
of School Specialty, Inc.

In our opinion, the consolidated statements of operations, of shareholders' equity and of cash flows for the year ended April 29, 2000, present fairly, in all material respects, the results of operations and cash flows of School Specialty, Inc. and its subsidiaries for the fiscal year ended April 29, 2000, in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 14(a)(2) presents fairly, in all material respects, the information set forth therein for the fiscal year ended April 29, 2000, when read in conjunction with the related consolidated financial statements. These financial statements and the financial

statement schedule are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements and the financial statement schedule based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In Thousands, Except Per Share Amounts)

NOTE 1--ORGANIZATION AND BASIS OF PRESENTATION

School Specialty, Inc. (the "Company"), is a Wisconsin corporation. The Company reincorporated from Delaware to Wisconsin effective August 29, 2000. The Company is primarily a direct marketer of supplemental education supplies to schools and teachers for pre-kindergarten through twelfth grade.

The accompanying consolidated financial statements and related notes to consolidated financial statements include the accounts of School Specialty, Inc., its subsidiaries and the companies acquired in business combinations accounted for under the purchase method from their respective dates of acquisition. All significant inter-company accounts and transactions have been eliminated.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Definition of Fiscal Year

The Company's fiscal year ends on the last Saturday in April in each year. As used in these consolidated financial statements and related notes to consolidated financial statements, "fiscal 2002," "fiscal 2001," and "fiscal 2000" refer to the Company's fiscal years ended April 27, 2002 (52 weeks), April 28, 2001 (52 weeks), and April 29, 2000 (53 weeks), respectively.

Cash and Cash Equivalents

The Company considers cash investments with original maturities of three months or less from the date of purchase to be cash equivalents.

Inventories

Inventories are stated at the lower of cost or market with cost generally determined on a weighted-average basis and consist primarily of products held for sale.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Additions and improvements are capitalized, whereas, maintenance and repairs are expensed as incurred. Depreciation of property, plant and equipment is calculated using the straight-line method over the estimated useful lives of the respective assets. The estimated useful lives range from twenty-five to forty years for buildings and its components and three to fifteen years for furniture, fixtures and equipment. Property and equipment leased under capital leases is being amortized over the lesser of its useful life or its lease term. As required by Statement of Financial Accounting Standards ("SFAS") No. 121 "Accounting for the Impairment of Long-Lived Assets and Assets to be Disposed of," the Company reviews property, plant and equipment for impairment if events or circumstances indicate an asset might be impaired.

Goodwill and Other Intangible Assets

Goodwill represents the excess of cost over the fair value of net assets acquired in business combinations accounted for under the purchase method. The Company adopted SFAS No. 142 at the beginning of fiscal 2002. As a result of this adoption, goodwill is no longer subject to amortization but rather must be tested for impairment

annually or more frequently if events or circumstances indicate goodwill might be impaired. Prior to fiscal 2002, goodwill was amortized using the straight-line method over fifteen to forty years. Other amortizable intangible assets include customer relationships, non-compete agreements and order backlog and are being amortized over their estimated useful lives ranging from one to fifteen years. Certain other intangible assets are not subject to amortization. See note on goodwill and other intangible assets.

Investments

The Company held a preferred stock investment in a company which had been accounted for under the cost method. Under this method, the Company's investment was stated at cost and was periodically evaluated for impairment. As a result of these evaluations, the Company has written-off this investment due

to the deteriorating financial condition of the company, reporting impairment changes of \$1,657 and \$1,500 during fiscal 2002 and fiscal 2000, respectively, within other expense in the consolidated statements of operations.

The Company had an investment in the common stock of Riverdeep Group plc, which was classified and accounted for as an available-for-sale security under SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities." Unrealized holding gains, net of tax, related to this investment were reported as other comprehensive income, a component of shareholders' equity. During fiscal 2002, the investment was sold, resulting in a realized pre-tax loss of \$329.

Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments including cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities approximate fair value.

Income Taxes

Income taxes have been computed utilizing the asset and liability approach which requires the recognition of deferred tax assets and liabilities for the tax consequences of temporary differences by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Revenue Recognition

Revenue is recognized upon the delivery of products or upon the completion of services provided to customers.

Cost of Revenues

Rebates received from vendors are recognized as a reduction in cost of revenues.

Deferred Catalog Costs

Deferred catalog costs represent costs which have been paid to produce Company catalogs which will be used in/benefit future periods. Deferred catalog costs are amortized in amounts proportionate to expected revenues over the life of the catalog, which is typically one year or less. Amortization expense related to deferred catalog costs is included in the consolidated statement of operations as a component of selling, general and administrative

expenses. Such amortization expense for fiscal years 2002, 2001 and 2000, was \$28,658, \$22,905, and \$16,076, respectively.

Shipping and Handling Costs

The Company accounts for shipping and handling costs as a cost of revenues for shipments made directly from vendors to customers. For shipments from the Company's warehouses, the Company accounts for shipping and handling costs as a selling, general and administrative expense. The amount of shipping and handling costs in selling, general and administrative expenses for fiscal years 2002, 2001 and 2000 was \$29,909, \$28,561, and \$23,410, respectively.

Foreign Currency Translation

The financial statements of foreign subsidiaries have been translated into U.S. dollars in accordance with SFAS No. 52, "Foreign Currency Translation." All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Income statement amounts have been translated using the average exchange rate for the year. Resulting translation adjustments are included in foreign currency translation adjustment, a component of other comprehensive income.

New Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001, with early adoption permitted. The adoption of SFAS No. 144 is not expected to have a material effect on the Company's financial statements or financial position.

Reclassifications

Certain amounts previously reported have been reclassified to conform with the current year presentation.

NOTE 3--GOODWILL AND OTHER INTANGIBLE ASSETS

Effective at the beginning of fiscal 2002, the Company adopted SFAS No. 142, which resulted in goodwill no longer being subject to amortization, but rather an annual impairment test. The following information presents what reported net income, basic earnings per share ("basic EPS") and diluted earnings per share ("diluted EPS") would have been had SFAS No. 142 been adopted at the beginning of fiscal 2000:

During fiscal 2001, the Company sold the SmartStuff division for a pre-tax gain for approximately \$500, which included the disposition of net goodwill of \$963, and the Gresswell division, a pre-tax loss of approximately \$700, which included the disposition of net goodwill of \$1,673. The adjustments during fiscal 2001 in the Specialty segment primarily represent the accrual of additional purchase price consideration associated with the Company's acquisition of Scantron Quality Computers. The adjustments during fiscal 2002 in the Traditional segment represent the reclassification of the net book value of previously recorded intangible assets to goodwill upon adoption of SFAS No. 142 of \$2,381. The balance of the adjustments within the Traditional segment represent the final allocation of purchase price associated with the acquisition of J.L. Hammett. The Specialty segment adjustments during fiscal 2002 represent additional cash consideration paid to the former owners of Global Video of \$210 and final purchase accounting adjustments of \$170. The balance of the fiscal 2002 adjustments represent foreign currency translation.

NOTE 4--BUSINESS COMBINATIONS

On December 21, 2001, the Company acquired all of the issued and outstanding shares of capital stock of Premier Agendas, Inc. and Premier School

Agendas Ltd., Agenda Scolaire Premier Ltee (together "Premier Agendas"). Premier Agendas, headquartered in Bellingham, Washington, is the largest provider of academic agendas in the United States and Canada. The Company expects the acquisition to create synergies with the existing student agenda brands Time Tracker and Hammond & Stephens. The aggregate purchase price, net of cash acquired, of \$155,931, includes a \$4,012 six-month note payable to the former owners of Premier Agendas that bears interest at two percent over LIBOR. The balance of the purchase price was funded primarily through borrowings under the Company's existing credit facility. The results of this acquisition have been included in the consolidated financial statements and are part of the Specialty segment results since the date of acquisition. The Company is in the process of finalizing restructuring related plans as a result of the acquisition and expects these and other adjustments to occur in fiscal 2003.

The total purchase price was allocated to the tangible and intangible assets and liabilities acquired based upon their respective fair values as of the closing date of the acquisition. A preliminary allocation of the purchase price has been made to major categories of assets and liabilities as follows:

The above acquired intangible valuations are based on a third-party valuation. In addition to the above intangible assets, the Company preliminarily recorded \$127,869 of goodwill related to the Premier Agendas acquisition, which will not be deductible for income tax purposes.

Also during fiscal 2002, the Company acquired three other businesses, accounted for under the purchase method of accounting, for a total purchase price, net of cash acquired, of \$9,566 including \$300 paid for non-compete agreements. The following transactions were paid for with cash and 120 shares of School Specialty, Inc. common stock:

- . April 2002 - Certain assets of the K-12 wholesale business of Bradburn School Supply, Inc., a marketer of supplemental educational supplies which will be operated from the Greenville, Wisconsin facility. Results are included in the Traditional segment since the date of acquisition.
- . October 2001 - Premier Science, a start-up science curriculum company which will be operated from the Mansfield, Ohio facility.

Results are included in the Specialty segment since the date of acquisition.

- . May 2001 - Envision, Inc., based in Grand Junction, Colorado, a designer, producer and marketer of student agenda books. Results are included in the Specialty segment since the date of acquisition. The purchase price included 120 shares of School Specialty, Inc. common stock.

The acquisitions resulted in goodwill of approximately \$6,910, which is fully deductible for tax purposes. The resulting goodwill from the Bradburn acquisition of \$747 is included in the Traditional segment, and the goodwill from the Premier Science and Envision acquisitions of \$6,163 is included in the Specialty segment.

During fiscal 2001, the Company made two acquisitions accounted for under the purchase method for an aggregate purchase price, net of cash acquired, of \$116,625, including \$2,750 paid for non-compete agreements. The above purchase price includes subsequent cash payments related to final purchase price adjustments of \$3,210 and \$353, which were made during fiscal 2002. The businesses acquired were:

- . November 2000 - Certain assets of the K-12 wholesale business of the J.L. Hammett Company, a marketer of supplemental educational supplies, with operations in Lyons, New York and Southaven, Mississippi. Results are included in the Traditional segment since the date of acquisition.
- . June 2000 - Global Video, LLC, a designer, producer and marketer of educational videos, based in Tempe, Arizona. Results are included in the Specialty segment since the date of acquisition.

Goodwill resulting from the above two transactions, including the affect of the fiscal 2002 adjustments, which is expected to be fully deductible for tax purposes, was approximately \$79,098, of which, \$49,923 has been allocated to the Traditional segment and \$29,175 to the Specialty segment.

During fiscal 2000, the Company made two acquisitions accounted for under the purchase method for an aggregate purchase price, net of cash acquired, of \$2,470. The following transactions were paid for with cash and 57 shares of School Specialty, Inc. common stock:

- . May 1999 - Audio Graphic Systems, a marketer of school furnishings and audio/visual equipment located in Ontario, California. Results are included in the Traditional segment since the date of acquisition.
- . December 1999 - Scantron Quality Computers, Inc., a marketer and developer of educational software located in St. Claire Shores, Michigan. Results are included in the Specialty segment since the date of acquisition.

Goodwill resulting from the Audio Graphic Systems acquisition of \$1,934, which is included in the Traditional segment, is not deductible for tax purposes. Goodwill of \$624 resulting from the Scantron acquisition is fully deductible for tax purposes and is included in the Specialty segment.

The following information presents the unaudited pro forma results of operations of the Company for fiscal 2002 and 2001, and includes the Company's consolidated results of operations and the results of the companies acquired during fiscal 2002 and fiscal 2001 as if all such purchase acquisitions had been made at the beginning of fiscal 2001, with the exception of the historical results from the Bradburn and Premier Science acquisitions, which have been excluded as they are immaterial. The results presented below include certain pro forma adjustments to reflect the amortization of goodwill (if the transaction occurred during fiscal 2001) and amortizable intangible assets, adjustments to interest expense, and the inclusion of an income tax provision on all earnings:

NOTE 5--RESTRUCTURING COSTS

During 1999, the Company recorded a restructuring charge of \$4,200 to consolidate warehousing, customer service and sales operations. During fiscal years 2000 and 1999, the Company terminated 43 and 152 employees, respectively, under this plan.

During the fourth quarter of fiscal 2001, the Company recorded a restructuring charge of \$4,500 to close redundant facilities and for related severance costs. The Company terminated 76 employees under this plan during fiscal 2001. Remaining payments primarily relate to commitments on a leased facility which expires in April 2005.

Less: Current maturities	(4,471)	(21,855)
	-----	-----
Total long-term debt	\$ 285,592	\$ 176,183
	=====	=====

On September 30, 1998, the Company entered into a five year secured \$350,000 credit facility (the "credit facility") with a syndicate of financial institutions, led by Bank of America, N.A. as Agent, consisting of a \$250,000 revolving loan and a \$100,000 term loan. Interest accrues at a rate of, at the Company's option, either (i) LIBOR plus an applicable margin of up to 2.25%, or (ii) the lender's base rate plus an applicable margin of up to 1.00%, plus a fee of up to 0.5% on the unborrowed amount under the revolving loan. The credit facility is secured by substantially all of the assets of the Company and contains certain financial covenants. The Company was in compliance with these covenants at April 27, 2002. At April 27, 2002, the balance outstanding under the credit facility was \$118,000 on the revolving loan. The term loan was paid in full during fiscal 2002. The effective interest rate under the credit facility for fiscal 2002 was 6.44%, which includes amortization of the loan origination fee and commitment fee on unborrowed funds, and excludes the effect of the interest rate swap agreement disclosed below.

On July 30, 2001, the Company sold an aggregate principal amount of \$130,000 of 6.0% convertible subordinated notes of the Company due in full August 1, 2008. The notes are convertible at any time prior to maturity into shares of School Specialty, Inc. common stock at a conversion price of \$32.29 per share and accrue interest payable semi-annually. There are no scheduled principal payments due prior to maturity. Net proceeds from the sale of these notes was \$125,675. On August 2, 2001, the purchasers of the notes exercised their over-allotment option in full and purchased an additional \$19,500 aggregate principal amount of the notes, with net proceeds of \$18,915. The Company used the total net proceeds from the offering of \$144,590 to repay a portion of the debt outstanding under the credit facility.

In November 2000, the Company entered into two sale-leaseback transactions which are accounted for as financings due to a technical default provision within the leases which could allow for continuing ownership involvement by the Company in the two properties. Under the agreements, the Company recorded debt of \$18,525, which has an effective interest rate of 8.97%, excluding amortization of loan fees. The leases expire in November 2020.

The Company entered into an interest rate swap agreement on December 13, 2000 (effective date of January 2, 2001), with The Bank of New York covering \$50,000 of the outstanding borrowings under the credit facility. On April 29, 2001, the Company began accounting for the swap in accordance with SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities", which requires derivative instruments, such as this interest rate swap, to be recorded on the balance sheet as either an asset or a liability measured at fair value. The swap

was designated as a cash flow hedge and was considered highly effective throughout its term. As a result of adopting SFAS No. 133, the Company recognized the fair value of the swap liability of \$660 (\$396 net of tax) with the net of tax offset to accumulated other comprehensive income (loss) on the date of adoption. Subsequent net of tax changes in the swap's fair value of \$163 were recorded as a component of accumulated other comprehensive loss during fiscal 2002, all of which was reclassified to the fiscal 2002, consolidated statement of operations when the hedged item affected earnings. The swap agreement fixed the 30-day LIBOR interest rate at 6.07 percent per annum on the \$50,000 notional amount and had a one-year term which expired on January 2, 2002.

SCHOOL SPECIALTY, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (In Thousands, Except Per Share Amounts)

On October 28, 1998, the Company entered into an interest rate swap agreement with The Bank of New York covering \$50,000 of the outstanding credit facility. The agreement fixed the 30-day LIBOR interest rate at 4.37% per annum on a \$50,000 notional amount and had a three year term that was cancelable by The Bank of New York on the second anniversary. On October 30, 2000, The Bank of New York cancelled the swap agreement.

As a result of the above swap agreements, interest expense was increased (decreased) in fiscal years 2002, 2001 and 2000 by \$931, \$(484) and \$(592), respectively.

The carrying value of variable rate long-term debt approximates fair value. The convertible subordinated notes had a fair value at April 27, 2002 of \$168,561, determined using the closing bid price as reported on the National Association of Securities Dealers' Portal Market on April 27, 2002.

NOTE 8--SECURITIZATION OF ACCOUNTS RECEIVABLE

The Company and certain of its U.S. subsidiaries entered into an agreement (the "Receivables Facility") in November 2000 with a financial institution whereby it sells on a continuous basis an undivided interest in all eligible trade accounts receivable. Pursuant to the Receivables Facility, the Company formed New School, Inc. ("NSI"), a wholly-owned, special purpose, bankruptcy-remote subsidiary. As such, the assets of NSI will be available first and foremost to satisfy the claims of the creditors of NSI. NSI was formed for the sole purpose of buying and selling receivables generated by the Company and certain subsidiaries of the Company. Under the Receivables Facility, the Company and certain subsidiaries transfer without recourse all their accounts receivables to NSI. NSI, in turn, has sold and, subject to certain conditions, may from time to time sell an undivided interest in these receivables and is permitted to receive advances of up to \$50,000 for the sale of such undivided interest. The Company receives a fee from the financial institution for billing and collection functions, which remain the responsibility of the Company, that approximates fair value. The agreement initially expired in November 2001. In November 2001 it was amended to extend the expiration to November 19, 2002. On May 2, 2002, the Receivables Facility was amended to allow NSI to receive advances up to \$100,000 under the Receivables Facility. Our retained interests in the receivables sold are recorded at fair value, which approximates cost, due to the short-term nature of the receivables sold.

This two-step transaction is accounted for as a sale of receivables under the provision of SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities." There was \$50,000 advanced under the Receivables Facility at April 27, 2002 and April 28, 2001, and accordingly, that amount of accounts receivable has been removed from the consolidated balance sheets. Costs associated with the sale of receivables, primarily related to the discount and loss on sale, were \$1,985 and \$1,389 and are included in other expenses in the consolidated statement of operations for fiscal years 2002 and 2001, respectively.

Rent expense for fiscal 2002, 2001 and 2000, was \$8,398, \$6,527, and \$5,535, respectively.

NOTE 11--EMPLOYEE BENEFIT PLANS

On June 9, 1998, the Company implemented the School Specialty, Inc. 401(k) Plan (the "401(k) Plan") which allows employee contributions in accordance with Section 401(k) of the Internal Revenue Code. The Company matches a portion of employee contributions and virtually all full-time employees are eligible to participate in the 401(k) Plan after 90 days of service. In fiscal years 2002, 2001, and 2000, the Company's matching contribution expense was \$670, \$657, and \$564, respectively.

NOTE 12--SHAREHOLDERS' EQUITY

Earnings Per Share ("EPS")

Basic EPS excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities to issue common stock were exercised. The following information presents the Company's computations of basic and diluted EPS for the periods presented in the consolidated statements of operations:

Effect of dilutive employee stock options	-	51	
Diluted EPS	\$ 18,515	17,480	\$ 1.06

The Company had additional employee stock options outstanding of 128, 259, and 948 during fiscal 2002, 2001 and 2000, respectively, that were not included in the computation of diluted EPS because they were anti-dilutive. Additionally, the impact of the conversion of the convertible debt to common stock has been excluded from the computation of fiscal 2002 diluted EPS because the impact was anti-dilutive.

Stock Offerings

On April 16, 1999, the Company issued 2,400 shares in conjunction with a secondary public offering for net proceeds of \$40,820. On May 17, 1999, the underwriters of the Company's secondary offering exercised their over allotment option for 151 shares of Company stock at \$17.25 per share for net proceeds of \$2,225.

Employee Stock Plans

On June 10, 1998, the Company's Board of Directors approved the School Specialty, Inc. 1998 Stock Incentive Plan (the "Plan"). The purpose of the Plan is to provide directors, officers, key employees and consultants with additional incentives by increasing their ownership interests in the Company. The maximum number of options available for grant under the Plan, is equal to 20% of the Company's outstanding common stock. The maximum number of options available for grant in any fiscal year under the Plan is 1,200 shares.

The Company accounts for options issued in accordance with Accounting Principles Board Opinion No. 25. Accordingly, because the exercise prices of the options is equal to the market price on the date of grant, no compensation expense has been recognized for the options granted to employees and directors. Had compensation expense related to the Company's stock option grants to employees and directors been recognized based upon the fair value of the stock options on the grant date under the methodology prescribed by SFAS No. 123 "Accounting for Stock Based Compensation", the Company's net income and net income per share would have been impacted as indicated in the following table:

Options granted are generally exercisable beginning one year from the date of grant in cumulative yearly amounts of twenty-five percent of the shares granted and generally expire ten years from the date of grant. Options granted to directors and non-employee officers of the Company vest over a three year period, twenty percent after the first year, fifty percent (cumulative) after the second year and one-hundred percent (cumulative) after the third year.

On June 20, 2000, the Board of Directors approved the JuneBox.com, Inc. 2000 Equity Incentive Plan. JuneBox.com was a wholly owned subsidiary of School Specialty, Inc., and its stock was not publicly traded. No options were granted under this Plan during fiscal 2002 and 1,900 options were granted at fair market value at the date of grant during fiscal 2001. No options were exercised under this Plan. During fiscal 2002, JuneBox.com, Inc. was merged into School Specialty, Inc. The options outstanding at that time were replaced with School Specialty, Inc. options under the School Specialty, Inc. 1998 Stock Incentive Plan. The option

holders were in the same economic position immediately before and after the replacement of JuneBox.com, Inc. options with School Specialty, Inc. options. The vesting provisions and option period of the original grants were not changed.

NOTE 13--SEGMENT INFORMATION

The Company's business activities are organized around two principal business segments, Traditional and Specialty and operate principally in the United States, with limited Specialty segment operations in Canada. Both internal and external reporting conform to this organizational structure, with no significant differences in accounting policies applied. The Company evaluates the performance of its segments and allocates resources to them based on revenue growth and profitability. While the segments serve a similar customer base, notable differences exist in products, gross margin and revenue growth rates. Products supplied within the Traditional segment include consumables (consisting of classroom supplies, instructional materials, educational games, art supplies and school forms), school furniture and indoor and outdoor equipment. Products supplied within the Specialty segment primarily target specific educational disciplines, such as art, industrial arts, physical education, sciences, and early childhood. This segment also supplies student academic planners. The accounting policies of the segments are the same as those described in Summary of Significant Accounting Policies. All intercompany transactions have been eliminated.

Effective with the beginning of fiscal 2002, the Company discontinued separately reporting the Internet segment, as the management of this business has changed such that this business is operated as a sales channel within the traditional and specialty segments. Amounts previously reported for the Internet segment have been reclassified to conform with fiscal 2002's presentation. The following table presents segment information:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In Thousands Except Per Share Amounts)

- (1) During the third quarter of fiscal 2002, the Company acquired Premier Agendas, a highly seasonal business during a seasonally low period. This transaction had the affect of reducing fiscal 2002's third and fourth quarter's reported net income and related earnings per share.
- (2) During the third quarter of fiscal 2001, the Company acquired certain assets of the K-12 wholesale business of the J.L. Hammett Company, a highly seasonal business during a seasonally low period. This transaction had the affect of reducing fiscal 2001's third and fourth quarter's reported net income and related earnings per share.
- (3) During the fourth quarter of fiscal 2001, the Company recorded a \$4,500 pre-tax restructuring charge. See "Restructuring Costs" for additional information related to this charge.

NOTE 15--RESTATEMENT OF FINANCIAL STATEMENTS

Subsequent to the issuance of the Company's consolidated fiscal 2001 financial statements, the Company determined that two sale-leaseback transactions which occurred during fiscal 2001 were improperly accounted for. The Company initially accounted for the transactions as operating leases under sale-leaseback accounting. The leases contain a specific technical default provision within the agreements that could, under remote circumstances, allow for continuing ownership involvement by the Company in the two properties. Due to this specific default provision within the leases, the Company should have accounted for the transactions as financings as opposed to sales and subsequent operating leases. The following table summarizes the impact of this restatement on our fiscal 2001 financial statements:

CONSENT

THIS CONSENT (this "Amendment") dated as of April 26, 2002 relating to the Credit Agreement referenced below is by and among School Specialty, Inc., a Wisconsin corporation (the "Borrower"), the Subsidiaries of the Borrower identified as "Guarantors" on the signature pages hereto, the Lenders identified on the signature pages hereto and Bank of America, N.A., as Administrative Agent (in such capacity, the "Administrative Agent"). Terms used herein but not otherwise defined herein shall have the meanings provided to such terms in the Credit Agreement.

W I T N E S S E T H

WHEREAS, a \$350 million credit facility has been extended to the Borrower pursuant to the terms of that Amended and Restated Credit Agreement dated as of September 30, 1998 (as amended, modified, supplemented, increased and extended from time to time, the "Credit Agreement") by and among the Borrower, the Guarantors, the Lenders and the Administrative Agent;

WHEREAS, the Borrower has requested a consent under the Credit Agreement; and

WHEREAS, the Required Lenders have agreed to the requested consent on the terms and conditions set forth herein.

NOW, THEREFORE, IN CONSIDERATION of the premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Consent to Release of Liens. Pursuant to the Consent and Amendment dated November 20, 2000 (the "Consent"), the Required Lenders (i) approved the Borrower and certain of its Subsidiaries entering into a Securitization Transaction on substantially the terms set forth in the Consent (the "Permitted Securitization Transaction") and (ii) authorized and directed the Administrative Agent to enter into an Intercreditor Agreement on substantially the terms set forth in the Consent (the "Intercreditor Agreement"). The Borrower intends to cause Premier Agendas, Inc., a wholly owned Subsidiary of the Borrower and a Guarantor under the Credit Agreement, to become a party to the Permitted Securitization Transaction. In connection therewith, the Required Lenders hereby (i) consent to the release by the Administrative Agent of the security interest and liens of the Administrative Agent, for the benefit of the Lenders, in all of the Property described on Schedule 1 hereto and (ii) authorize and direct the Administrative Agent to enter into an amendment to the Intercreditor Agreement in connection with the joinder of Premier Agendas, Inc. to the Permitted Securitization Transaction.

2. Conditions Precedent. This Amendment shall be effective as of the date hereof upon receipt by the Administrative Agent of multiple counterparts of this Amendment executed by the Credit Parties and the Required Lenders;

3. Reaffirmation of Representations and Warranties. The Credit Parties hereby affirm that the representations and warranties set forth in the Credit Documents are true and correct as of the date hereof after giving effect to this Amendment (except those that expressly relate to an earlier period).

4. Reaffirmation of Guaranty. Each of the Guarantors (i) acknowledges and consents to all of the terms and conditions of this Amendment, (ii) affirms all of its obligations under the Credit Documents

and (iii) agrees that this Amendment and all documents executed in connection herewith do not operate to reduce or discharge the Guarantors' obligations under the Credit Agreement and the other Credit Documents.

5. No Other Changes. Except as modified hereby, all of the terms and provisions of the Credit Agreement and the other Credit Documents (including the schedules and exhibits thereto) shall remain in full force and effect.

6. Cost and Expenses. The Borrower agrees to pay all reasonable costs and expenses of the Administrative Agent in connection with the preparation,

execution and delivery of this Amendment, including without limitation the reasonable fees and expenses of Moore & Van Allen, PLLC.

7. Counterparts. This Amendment may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original and it shall not be necessary in making proof of this Amendment to produce or account for more than one such counterpart.

8. Governing Law. This Amendment shall be deemed to be a contract made under, and for all purposes shall be construed in accordance with, the laws of the State of New York.

[Remainder of Page Intentionally Left Blank]

EMPLOYMENT AGREEMENT

THIS EMPLOYMENT AGREEMENT, dated as of this 1st day of May, 2002, and having an "Effective Date" of May 1, 2002, is by and between SCHOOL SPECIALTY, INC., a Wisconsin corporation (the "Company") and DAVID J. VANDER ZANDEN ("Employee").

RECITALS

The Company desires to continue to employ Employee and to have the benefit of his skills and services, and Employee desires to accept employment with the Company on the terms and conditions set forth herein.

This Employment Agreement supercedes and cancels any other prior employment agreements or understandings, written or oral, between the Company and the Employee.

NOW, THEREFORE, in consideration of the mutual promises, terms, covenants and conditions set forth herein, and the performance of each, the parties hereto, intending legally to be bound, hereby agree as follows:

AGREEMENTS

1. Employment and Duties. The Company hereby agrees to employ the Employee and the Employee hereby accepts employment as the Chief Operating Officer and President of the Company and agrees to devote his full business time and efforts to the diligent and faithful performance of his duties as Chief Operating Officer and President of the Company hereunder under the direction of the Chief Executive Officer of the Company. Such duties shall be performed from headquarters in the Greenville, Wisconsin, area. Throughout the term of this Agreement, the Employee shall be recommended by the Board of the Company, to its shareholders as a suitable candidate for a position on the Board of Directors of the Company.
2. Term of Employment. Unless sooner terminated as hereinafter provided, the term of the Employee's employment hereunder shall commence with and only with the Effective Date and shall continue for a period of three (3) years (the "Term"). This Agreement may be terminated prior to the end of the Term in the manner provided herein. In the event that this agreement is not terminated pursuant to the terms of this Agreement, following the first year of the Term of three (3) years or the first year of any renewal terms thereof, said agreement shall extend for successive renewal terms of three (3) years each measured from the date of renewal, unless either party shall notify the other party of their desire to not renew the term of this agreement, with said notice to be made no later than ninety (90) days prior to the expiration of the first year of the Term of this agreement or any then effective first year of any renewal term thereof.
3. Compensation. For all services rendered by Employee, the Company shall compensate Employee as follows:
 - (a) Base Salary. Effective on the date hereof, the annual base salary payable to Employee shall be Three Hundred Ten Thousand Dollars (\$310,000.00) per year or such greater amount as determined from time to time by the Board of Directors of the Company (but not reviewed less frequently than on an annual basis), payable on a regular basis in accordance with the Company's standard payroll procedures, but not less than monthly. It is understood that the base salary is a minimum amount, and shall not be reduced during the term of this Agreement.
 - (b) Incentive Bonus. During the initial term and any extensions thereof, Employee shall be eligible to receive an incentive bonus based upon his participation in the Company's current senior management bonus program or successor senior management bonus programs, when effective. The first and last years of employment will be prorated.

- (c) Perquisites, Benefits, and Other Compensation. During the initial term and any extensions thereof, Employee shall be entitled to receive all perquisites and benefits as are customarily provided by the Company to its executive employees, subject to such changes, additions, or deletions as the Company may make generally from time to time, as well as such other perquisites or benefits as may be specified from time to time by the Board of Directors or the Chief Executive Officer of the Company. Throughout the term of this Agreement, and during any period of salary continuation hereunder, the Employee and his family shall continue to be covered under all health insurance coverage of the Company afforded its senior management, at the then effective cost sharing arrangement between the Employee and the Company. Notwithstanding anything to the contrary in this Agreement or any documents relating to qualified or non-qualified stock options, all such outstanding stock options which were outstanding on the Effective Date and are unvested at the time of termination of employment of the Employee with the Company shall be vested in full upon such termination, unless such termination is effectuated by the Company for cause.

4. Covenants and Conditions.

- (a) The Employee will acquire information and knowledge respecting the intimate and confidential affairs of the Company in the various phases of its business. Accordingly, the Employee agrees that he shall not for a period of two (2) years following the termination of his employment with the Company, use for himself or disclose to any person not employed by the Company any such knowledge or information heretofore acquired or acquired during the term of this employment hereunder including but not limited to the prescribed requirements of (S) 134.90 of the Wisconsin Statutes, as hereinafter amended from time to time. Nothing in this agreement shall be

Page 2

construed to limit or supersede the common law of torts or statutory or other protection of trade secrets where such law provides the Company with greater protections or protections for a longer duration than that provided in this section 4 of this Agreement.

- (b) The Employee agrees that all memoranda, notes, records, papers, or other documents and all copies thereof relating to the Company's operations or business, some of which may be prepared by him, and all objects associated therewith (such as models and samples) in any way obtained by him shall be the Company's property. This shall include, but is not limited to, documents and objects concerning any process, apparatus, or product manufactured, used, developed, investigated, or considered by the Company. The Employee shall not, except for Company use, copy or duplicate any of the aforementioned documents or objects, nor remove them from the Company's facilities, nor use any information concerning them except for the Company's benefit, either during his employment or thereafter. The Employee agrees that he will deliver all of the aforementioned documents and objects that may be in his possession to the Company on termination of his employment, or at any other time on the Company's request, together with his written certification of compliance, except for those documents and objects received as a director of the Company.

5. Death or Disability of the Employee. The Employee's employment shall terminate immediately upon his death. In the event the Employee becomes physically or mentally disabled so as to qualify for disability payments under the then current disability coverage for full time employees of the Company, the Company may at its option terminate his employment upon not less than thirty (30) days written notice. The Company's right to terminate the Employee's employment pursuant to the preceding sentence shall cease in the event the notice of termination provided for therein shall not be given during the

period of the Employee's disability or within ninety (90) days after such disability ceases. In the event of termination, the Company shall be obligated to pay the Employee's salary under paragraph 3 hereof, net of the gross amount of Long Term disability benefits received by the Employee, through the balance of the term of this Agreement and any then currently effective extension thereof.

6. Termination and Severance Compensation. The Company reserves the right to immediately terminate the Employee's employment under this agreement should any of the following occur:

- (a) The Employee's commission of a felony that is an act which, in the opinion of the Board of Directors, is either abhorrent to the community or is an intentional act, which the Board of Directors considers materially damaging to the reputation of the Company or its successors or assigns.
- (b) The Employee's breach of or failure to perform his obligations in accordance with the terms and conditions of this agreement. However the right of the Company to terminate the employment of the Employee under the terms of

Page 3

this paragraph 6(b) shall be conditioned upon the Company promptly providing to the Employee a written notice which describes the Employee's breach of or failure to perform his obligations in accordance with the terms and conditions of this agreement. The Employee shall have thirty (30) days from the date of the Company's issuance of this notice to cure the described breach or failure. Notwithstanding the above described language, should the Company issue more than one (1) notice in any twelve (12) month period under the terms of this paragraph 6(b), the Employee shall have no cure rights for such breach or failure to perform.

- (c) The death of the Employee.
- (d) The disability of the Employee, as described in Section 5 above.

Should the term of the Employee's employment with the Company be terminated pursuant to the terms of Sections 6(c), 6(d), 7, and 8 herein, the Company shall pay to the Employee the Base Salary described in Section 3(a) for the balance of the then effective term of this Agreement.

7. Rights and Obligations of Successors. In the event that any of the following events occur, a "Change in Control" shall be deemed to occur for the purpose of this Agreement: (a) any person or group of persons acting in concert becomes the beneficial owner, directly or indirectly (excluding ownership by or through employee benefit plans), of securities of the Company representing fifty percent (50%) or more of the combined voting power of the Company's then outstanding securities; (b) the Company is combined (by merger, share exchange, consolidation, or otherwise) with another corporation and as a result of such combination less than seventy five percent (75%) of the outstanding securities of the surviving or resulting corporation are owned in the aggregate by the former shareholders of the Company; or (c) any person or group of persons acting in concert obtains direct or indirect control of the Board of Directors of the Company, other than the current shareholders of the Company. The Employee shall have the right to terminate his employment under the terms of this Agreement for a period of sixty (60) days following the Change in Control. In the event that the Employee shall not so elect to terminate this Agreement, then this agreement shall be assignable and transferable by the Company to any subsidiary or affiliate or to any subsidiary or affiliate of the Company affiliated with the Change in Control and shall inure to the benefit of and be binding upon the Employee and his heirs and personal representatives and the Company and its successors and assigns. In the event the Employee elects to terminate employment, the Employee shall be paid through the term of this Agreement and any then currently effective extension thereof.

8. Termination Rights of the Employee. Throughout the term of this Agreement, the Employee shall have the right to termination his employment with the Company, with or without cause, upon 180 days prior written notice. Such notice period shall extend to 270 days during the first six (6) months of employment of any newly hired chief executive officer of the Company. The terms of this Section

Page 4

8 shall terminate three (3) years from the Effective Date of this Agreement.

9. Covenant Not to Compete. In consideration of the employment hereunder, the Employee hereby agrees that during the term of his employment by the Company and for the longer of (a) a period of twenty four (24) months following the termination of his employment with the Company, or (b) the length of time which the Employee receives base salary payments under this Agreement under the provisions of Section 6 of this Agreement, the Employee will not either directly or indirectly own, have proprietary interest (except for less than 5% of any listed company or company traded in the over-the-counter market) of any kind in, be employed by, or serve as a consultant to or in any other capacity for any firm, other than the Company and its subsidiaries, engaged in the manufacture and distribution of school supplies, equipment, furniture or other products made and distributed by the Company or any of the Company's present or future subsidiary corporations (acquired during the term of this Agreement) during the period of the Employee's employment in the area where they are engaged in business without the express written consent of the Company. The Employee agrees that a breach of the covenant contained herein will result in irreparable and continuing damage to the Company for which there will be no adequate remedy at law and in the event of any breach of such agreement, the Company shall be entitled to injunctive and such other and further relief including damages as may be proper.
10. Notice. All notices, demands and other communications hereunder shall be deemed to have been duly given, if delivered by hand or mailed, certified or registered mail with postage prepaid:

10. Entire Agreement; Amendment; Waiver. This Agreement (including any documents referred to herein) sets forth the entire understanding of the parties hereto with respect to the subject matter contemplated hereby. Any and all previous agreements and understandings between or among the parties regarding the subject matter hereof, whether written

or oral, are superseded by this Agreement. This Agreement shall not be amended or modified except by a written instrument duly executed by each of the parties hereto. Any extension or waiver by any party of any provision hereto shall be valid only if set forth in an instrument in writing signed on behalf of such party.

11. Expenses. Each party hereto will pay their respective fees, expenses and disbursements of their agents, representatives, accountants and counsel incurred in connection with the subject matter of this Agreement, and its enforcement.
12. Governing Law. This Agreement shall in all respects be construed according to the laws of the State of Wisconsin, without regard to its conflict of laws principles.

SCHOOL SPECIALTY, INC.
INCENTIVE BONUS PLAN

1. Purpose. The Board of Directors of School Specialty, Inc. adopted this Incentive Bonus Plan to establish a correlation between the annual incentives awarded to the Participants and the Company's financial performance. Subject to the terms and conditions of this Plan, the Participants will receive a discretionary incentive bonus and/or an incentive bonus tied to Performance Goals. The Plan will be applicable to Fiscal Year 2003 and subsequent years unless and until terminated by the Committee.

2. Definitions. As used in the Plan, the following terms have the meanings indicated:

(a) "Board" means the Board of Directors of the Company.

(b) "Committee" means the Board or the Executive Performance Compensation Committee or any other authorized committee of the Board.

(c) "Company" means School Specialty, Inc. and its consolidated subsidiaries.

(d) "Disability" means a condition that entitles the Participant to disability payments under the terms of the Company's long-term disability plan.

(e) "Participant" means any executive or other associate of the Company participating in the Plan for the applicable Fiscal Year.

(f) "Performance Goal" means a goal established by the Committee to measure the performance of the Company for the purpose of determining whether, and to what extent, an award will be payable under the Plan for the Fiscal Year.

(g) "Fiscal Year" means the Company's fiscal year. The initial Fiscal Year is the fiscal year ended April 26, 2003.

(h) "Plan" means this School Specialty, Inc. Incentive Bonus Plan, as amended from time to time.

(i) "Retirement" means the termination of employment of a Participant due to retirement with the consent of the Committee.

(j) "Salary" means base salary actually earned by a Participant during the applicable Fiscal Year.

3. Participation. Participation in the Plan for any Fiscal Year shall be limited to the Participants designated by the Committee by name or position. At the Committee's discretion, a

person who becomes a Participant after the commencement of a Fiscal Year shall be eligible to receive an award pursuant to Section 4 on such terms as the Committee may determine.

4. Determination of Awards.

(a) From time to time, the Committee may approve one or more Performance Goals and the terms and amount of an award for each Participant. Awards are based on a percentage of a Participant's Salary for the Fiscal Year. Awards may include awards that are paid at the discretion of the Committee and awards payable if and/or to the extent that Performance Goals are achieved.

(b) The Committee expressly reserves the right to increase, reduce or eliminate entirely any award at any time before it is paid. Such determination shall be conclusive and binding on the Participant(s) and the Company.

5. Payment of Awards.

(a) Subject to the other terms and conditions of this Plan, awards shall be

payable promptly following the completion of the audit of the Fiscal Year for which they are computed. Notwithstanding the foregoing, a Participant may defer receipt of an award otherwise payable by filing a timely election pursuant to any deferred compensation plan maintained by the Company. All awards under the Plan are subject to federal, state and local income and payroll tax withholding.

(b) Even if the Performance Goals have been met, Participant shall receive no payment if the Participant's employment with the Company terminates prior to the date of payment for any reason other than death, Disability or Retirement. A Participant who terminates employment for death, Disability or Retirement shall be eligible to receive an award based on Salary earned in the applicable Fiscal Year through the date of termination, if an award is otherwise payable pursuant to Section 4.

(c) If a Participant dies and is subsequently entitled to receive an award under the Plan, the award shall be paid to the Participant's estate.

6. Administration. The Plan shall be administered by the Committee. The Committee may adopt rules and regulations for carrying out the Plan, and the Committee may take such actions as it deems appropriate to ensure that the Plan is administered in the best interests of the Company. The Committee has the authority to construe and interpret the Plan, resolve any ambiguities, grant waivers or exceptions to the terms of the Plan or an award, and make determinations with respect to the eligibility for or amount and terms of any award. The interpretation, construction and administration of the Plan by the Committee shall be final and conclusive. The Committee may consult with counsel, who may be counsel to the Company, and shall not incur any liability for any action taken in good faith in reliance upon the advice of counsel. The Committee, in its discretion, may delegate its authority and duties under the Plan to the Chief Executive Officer, President and/or other senior officers of the Company under such conditions and/or limitations as the Committee may establish.

2

7. Rights. Participation in the Plan and the right to receive awards under the Plan shall not give a Participant any proprietary interest in the Company or any of its assets or create contractual or other legal duties in favor of a Participant. A Participant shall for all purposes be a general creditor of the Company. The interests of a Participant cannot be assigned, anticipated, sold, encumbered or pledged and shall not be subject to the claims of his creditors. Nothing in the Plan shall confer upon any Participant the right to receive an award, be selected as a Participant or continue in the employ of the Company, or shall interfere with or restrict in any way the right of the Company to discharge a Participant at any time for any reason whatsoever, with or without cause. A person's selection to be a Participant in any Fiscal Year does not give such person any right to be selected a Participant in any other Fiscal Year.

8. Successors. The Plan shall be binding on the Participants and their personal representatives. If the Company becomes a party to any merger, consolidation, reorganization or other corporate transaction, the Plan shall remain in full force and effect as an obligation of the Company or its successor in interest.

9. Amendment and Termination. The Committee may amend or terminate the Plan or any awards hereunder at any time as it deems appropriate.

1.9 the definition of "Net Receivables Balance" appearing in Exhibit I is hereby amended to insert the phrase "and further reduced by (i) the State Overconcentration Amount and (ii) the PG Commercial Printing Overconcentration Amount" at the end thereof;

1.10 the definition of "Purchase Price" appearing in Exhibit I is hereby amended to insert the phrase "Weekly Report," immediately prior to the phrase "Monthly Report" appearing therein;

1.11 the definition of "Purchase Limit" appearing in Exhibit I is hereby amended to delete the amount "\$50,000,000" appearing therein and to replace the amount "\$100,000,000" therefor;

1.12 Exhibit I is hereby amended to insert the following definitions in alphabetical order:

"PG Commercial Printing Overconcentration Amount" means, at any time, the amount by which the aggregate Outstanding Balance of all Eligible Receivables generated by PG Commercial Printing, a division of Premier Agendas, Inc., exceeds the product of (i) five percent (5%) and (ii) the aggregate Outstanding Balance of all Eligible Receivables at such time.

2

"Premier Receivables" means all Receivables for which the Original Seller is Premier Agendas, Inc., a Washington corporation.

"State Overconcentration Amount" means, at any time, the amount by which the aggregate Outstanding Balance of all Eligible Receivables of all Obligors located in any one state exceeds the product of (i) fifteen percent (15%) and (ii) the aggregate Outstanding Balance of all Eligible Receivables at such time.

"Weekly Report" means a report, in substantially the form of Exhibit XII hereto (appropriately completed), furnished by the Servicer to the Agent pursuant to Section 8.5.

"Weekly Reporting Date" means each Tuesday of each week.

1.11 Exhibit X (Form of Monthly Report) is hereby deleted in its entirety and replaced with Exhibit 1 hereto.

1.12 Exhibit 2 hereto (Form of Weekly Report) is hereby attached to the Purchase Agreement as a new Exhibit XII.

SECTION 2. Conditions Precedent. This Amendment shall become effective and be deemed effective, as of the date first above written, upon receipt by the Agent of (i) one copy of this Amendment duly executed by each of the parties hereto, and (ii) a fully-earned, non-refundable amendment fee from the Seller in the amount of \$75,000.

SECTION 3. Covenants, Representations and Warranties of the Seller and the Servicer.

3.1 Upon the effectiveness of this Amendment, each of Seller and SSI hereby reaffirms all covenants, representations and warranties made by it, to the extent the same are not amended hereby, in the Purchase Agreement and agrees that all such covenants, representations and warranties shall be deemed to have been re-made as of the effective date of this Amendment.

3.2 Each of Seller and SSI hereby represents and warrants as to itself (i) that this Amendment constitutes the legal, valid and binding obligation of such party enforceable against such party in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and general principles of equity which may limit the availability of equitable remedies and (ii) upon the effectiveness of this Amendment, no event shall have occurred and be continuing which constitutes an

Amortization Event or a Potential Amortization Event.

SECTION 4. Reference to and Effect on the Investor Agreement.

4.1 Upon the effectiveness of this Amendment, each reference in the Purchase Agreement to "this Agreement," "hereunder," "hereof," "herein," "hereby" or words of like import shall mean and be a reference to the Purchase Agreement as amended hereby, and each

3

reference to the Purchase Agreement in any other document, instrument or agreement executed and/or delivered in connection with the Purchase Agreement shall mean and be a reference to the Purchase Agreement as amended hereby.

4.2 Except as specifically amended hereby, the Purchase Agreement and other documents, instruments and agreements executed and/or delivered in connection therewith shall remain in full force and effect and are hereby ratified and confirmed.

4.3 The execution, delivery and effectiveness of this Amendment shall not operate as a waiver of any right, power or remedy of Falcon, the Financial Institutions or the Agent under the Purchase Agreement or any of the other Transaction Documents, nor constitute a waiver of any provision contained therein, except as specifically set forth herein.

SECTION 5. GOVERNING LAW. THIS AMENDMENT SHALL BE CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK AND THE OBLIGATIONS, RIGHTS, AND REMEDIES OF THE PARTIES UNDER THIS AGREEMENT SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

SECTION 6. Execution in Counterparts. This Amendment may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which taken together shall constitute but one and the same instrument.

SECTION 7. Headings. Section headings in this Amendment are included herein for convenience of reference only and shall not constitute a part of this Amendment for any other purpose.

* * * * *

4

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed on the date first set forth above by their respective officers thereto duly authorized, to be effective as hereinabove provided.

FORWARD-LOOKING STATEMENTS

You should consider the following factors in evaluating us and our business. If any of the following or other risks actually occurs, our business, financial condition and results of operations could be adversely affected. In such case, the trading price of our common stock could decline.

Dependence on Growth of Student Population and School Expenditures. Our growth strategy and profitability depend in part on growth in the student population and expenditures per student in preK-12 schools. The level of student enrollment is largely a function of demographics, while expenditures per student are also affected by government budgets and the prevailing political and social attitudes towards education. Any significant and sustained decline in student enrollment and/or expenditures per student could have a material adverse effect on our business, financial condition, and results of operations.

Seasonality of Our Business. Our businesses are highly seasonal. Because most of our customers want their school supplies delivered before or shortly after the commencement of the school year, we record most of our revenues from June to October. As a result, we usually earn more than 100% of our annual net income in the first two quarters of our fiscal year and operate at a net loss in our third and fourth fiscal quarters. This seasonality causes our operating results to vary considerably from quarter to quarter.

Material Amount of Goodwill and Intangible Assets. Approximately \$426.4 million, or 63 percent, of our total assets as of April 27, 2002 represented intangible assets, the significant majority of which is goodwill. Goodwill is the amount by which the costs of an acquisition accounted for using the purchase method exceeds the fair value of the net assets we acquire. We are required to record goodwill as an intangible asset on our balance sheet. In addition, we are required to evaluate whether our goodwill and other intangible assets have been impaired. Reductions in our net income caused by the write-down of goodwill or intangible assets could materially adversely affect our results of operations.

Ability to Identify and Integrate Acquisitions. Our business has grown significantly through acquisitions in recent years. Future growth in our revenues and earnings are enhanced by our ability to continue to acquire and successfully integrate and operate school supply companies. We cannot guarantee that we will be able to identify and acquire businesses at all or on reasonable terms. In addition, we cannot be sure that we will be able to operate the businesses that we acquire profitably or that our management and financial controls, personnel, computer systems and other corporate support systems will be adequate to manage the increased size and scope of our operations as a result of acquisitions. Managing and integrating acquired businesses may result in substantial costs, delays, or other operating or financial problems that could materially and adversely affect our financial condition and results of operations.

Dependence on Key Suppliers and Service Providers. We depend upon a limited number of suppliers for some of our products, especially furniture and proprietary products. We also depend upon a limited number of service providers for the delivery of our products. If these suppliers or service providers are unable to provide the products or services that we require or materially increase their costs (especially during our peak season of June through October), this could impair our ability to deliver our products on a timely and profitable basis and could have a material adverse effect on our business, financial condition and results of operations. As we seek to reduce the number of our suppliers and to minimize duplicative lines as part of our business strategy, we are likely to increase our dependence on remaining suppliers.

Competition. The market for school supplies is highly competitive and fragmented. We estimate that over 3,400 companies market educational materials to schools with preK-12 as a primary focus of their business. We also face increasing competition from alternate channel marketers, including office supply superstores and office product contract stationers, that have not traditionally focused on marketing school supplies. These competitors are likely to continue to expand their product lines and interest in school supplies. Some of these competitors have greater financial resources and buying power than we do. We

believe that the supplemental educational supply market will consolidate over the next several years, which is likely to increase competition in our markets and in our search for attractive acquisition candidates.

Reliance on Key Personnel. Our business depends to a large extent on the abilities and continued efforts of current executive officers and senior management. We are also likely to depend heavily on the executive officers and senior management of businesses that we acquire in the future. If any of these people become unable or unwilling to continue in his or her role, or if we are unable to attract and retain other qualified employees, our business could be adversely affected. Although we have employment contracts with our executive officers, we do not have employment agreements with other members of our management. We do not have and do not intend to obtain key man life insurance covering any of our executive officers or other members of our management.

Vacant CEO Position. We have a vacancy in the position of chief executive officer (CEO) resulting from the unexpected death of our former CEO, Daniel P. Spalding, in March 2002. We are in the process of recruiting a chief executive officer and have hired a search firm to assist us. Our future success depends, in part, on finding and hiring a qualified candidate for this position.

Dependence on Our Information Systems. We believe that one of our competitive advantages is our information systems. We have integrated the operations of almost all of our divisions and subsidiaries and their information systems are linked to host systems located at our headquarters in Greenville, Wisconsin and at three other locations. If any of these links becomes disrupted or unavailable, this could materially and adversely affect our business, results of operations and financial condition.

Several of our recently-acquired divisions and/or subsidiaries use predecessor information systems. We intend to convert the information systems of these businesses to one of our host systems as soon as practicable. However, none of these businesses has a backup computer system or backup communication lines. Even though we have taken precautions to protect ourselves from events that could interrupt the operations of these businesses and intend to do so for other businesses we acquire in the future, we cannot be sure that a fire, flood or other natural disaster affecting their systems would not disable the system or prevent the system from communicating with our other businesses. The occurrence of any of these events could have a material adverse effect on our results of operations and financial condition.

Leverage. As of April 27, 2002, we had \$290.1 million of debt outstanding. Our leverage could increase over time. Our credit facility permits us to incur additional debt under certain circumstances, and we expect to borrow under our credit facility for general corporate purposes, including working capital and for acquisitions. Our ability to meet our debt service obligations depends on our future performance. Our future performance is influenced by general economic conditions and by financial, business, and other factors affecting our operations, many of which are beyond our control. If we are unable to service our debt, we may have to delay our acquisition program, sell our equity securities, sell our assets, or restructure and refinance our debt, and our business may suffer as a result.

Absence of Dividends. We do not expect to pay cash dividends on our common stock in the foreseeable future. In addition, our ability to pay dividends may be restricted from time to time by the financial covenants contained in our credit agreements and debt instruments. Our current credit facility contains restrictions on, and in some circumstances may prevent, our payment of dividends.
